

**The war of
GAG and OMEGA**

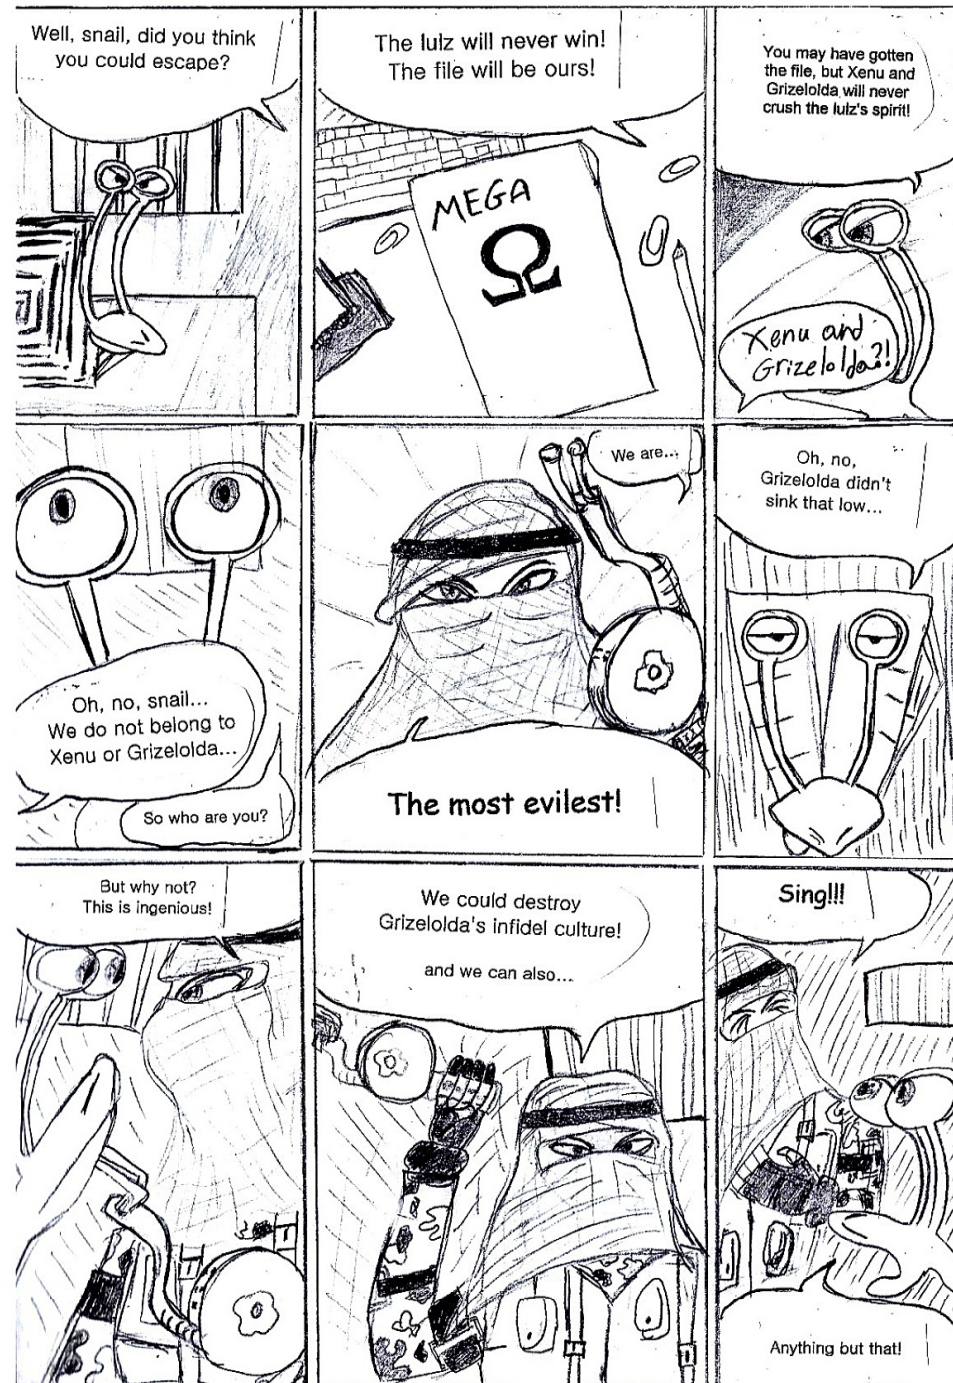

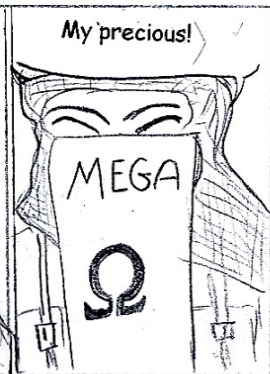

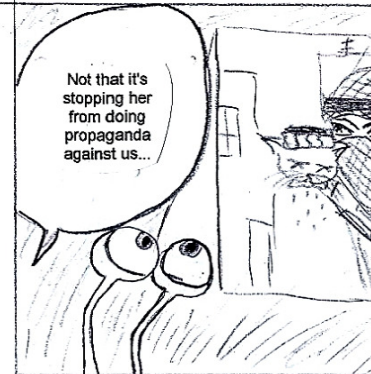

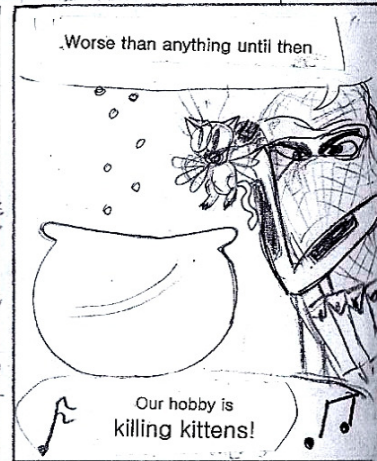

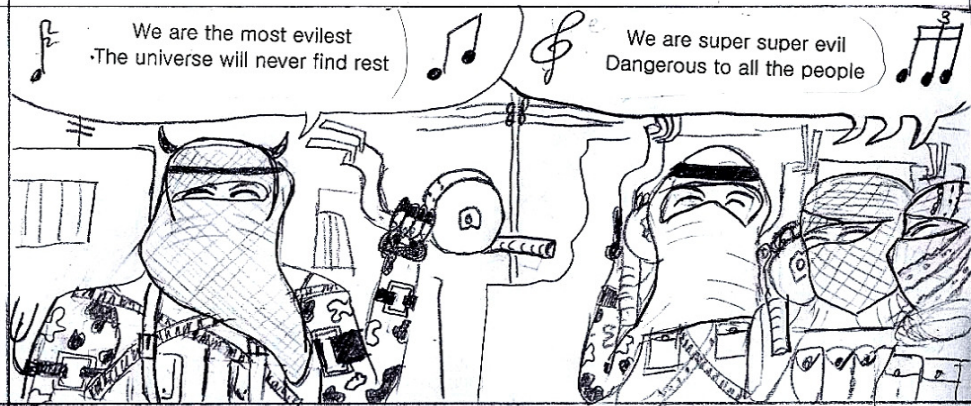

Fan art

Thanx Stefan for designing the snail gun!

Today's agenda: We lost contact with the snail and the secret agent, they've probably been captured. We leaked information on the starvation of prisoners whose only way to eat is a hunger strike, then they're feeding them by force. And... there's a new group called "The most vilest!"

They are a radical group, they move from planet to planet, so far only in one galaxy cluster, they dedicate their life to the killing of kittens

The irony is that Xenu is the only one who fights them

Xenu, my darling, it happened sooner than we expected.

The lulz managed to get their hands on the Mega Omega file, but the terrorists caught their snail, and megalomania'ed themselves from it.

How can that be?

Xenu managed to take over few planets, they are the planets that the radicals are attacking. This is how he preserves his brave rebel image

Grizelolda can openly transfer weapons to them, so they'll fight Xenu, and in the same time she's making propaganda against them, and presents herself as the free world.

The people are buying that?

I will never understand how the politics of this universe work...

So fast? What made them suddenly go against their weapon supplier?

What will we do?

Don't worry, you are still a young dictator, in a millennium it'll feel like every two weeks you're arming radical fanatics and get in trouble for it.

So why don't you explain to me, you old dictator... is it a good time for our plan?

I think it's even the time for a Defensive war

The question is...

What are the lulz going to do about it?

A... War???

And we could also activate the union plan

Oh, Xenu, we're going to have so much fun! Like in the old days!
The "old days"?!)

We're going to war!

Listen up, Xenu supporters! We won our freedom from Grizeloida, but now we are tested, are we prepared to defend that freedom?

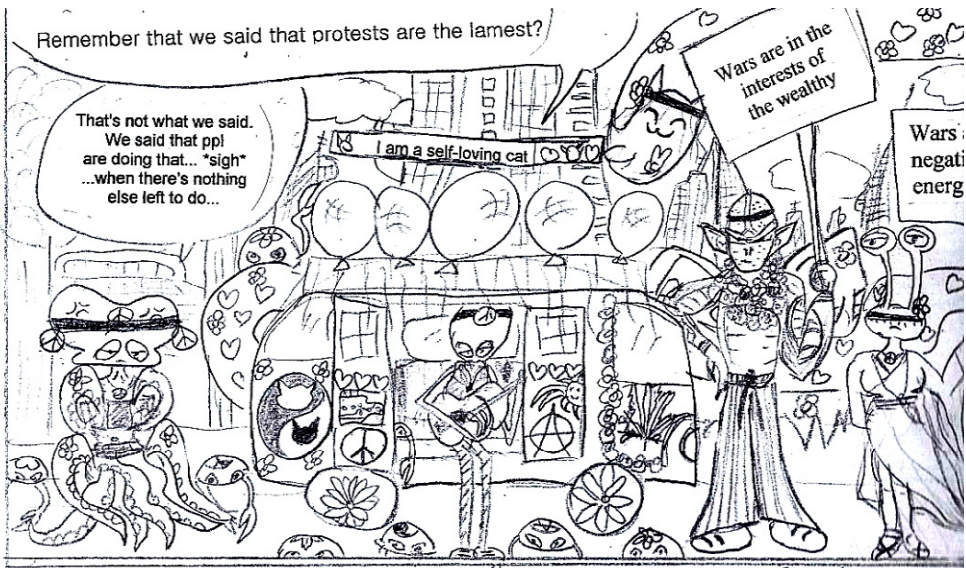

Don't worry, snail, they wouldn't dare to hurt the file. Victory will be ours!

My presence here is justified.

I'm going to fire so many workers and no one will notice!

Wars are negative energies

And wear this, snails are not exactly mates.

Remember that we said that protests are the lamest?

That's not what we said. We said that ppl are doing that... "sigh" ...when there's nothing else left to do...

Wars are in the interests of the wealthy

Wars: negative energ

The enemy is coming! Attack! Give them the cat-loving energies!

We're about to begin the war between evil and lame. Attack the infidels who don't want to kill kittens!

Yes sir!

somebody shoot me!

Remember. I agreed to compromise with Xenu. The terrorists never will, they are the real enemy!

All this business with this file make me think...

Here he goes again...

Is it a coincidence that we just lost our agent?

We're receiving a transmission from that agent just now!

What is it?

"I have a plan"...

The enemy took over another galaxy. They're about to sacrifice all of the kittens there (that the rest of the citizens will help them find, for some reason) but we won't give them the satisfaction!

Prepare to destroy the galaxy!

We can't destroy a whole galaxy! That's genocide!

Supporter of kitten murders! Arrest him!

Nothing has changed! We're supposed to be the good guys!

Go join the lulz!

Sir! The GAG forces gave us 5 minutes notice before they destroy the entire galaxy!

Those good guys are insane!

But to destroy the galaxy they're going to move their fleet from the most cat-rich galaxy!

All the participants in this war are a bunch of idiots!

They have taken the bait! They're heading to the galaxy we wanted.

LOL! We can destroy galaxies and still look good!

And does the Nyan-cat army prepare to fight for their cat-brothers?

LOL, we're sending cats to die ourselves, and still look good!

Join the lulz, she says...

Who am I to refuse a direct order from her highness?

There must be a way to contact the lulz from this prison...

Come on! As long as we are on the way, operate on me!

An officer from Grizelolda's ship has just sent us all of their communication codes!

The universe does it to me on purpose!

Do you think you could break into their computers with these codes?

I think so

Good, I'm starting to get an idea!

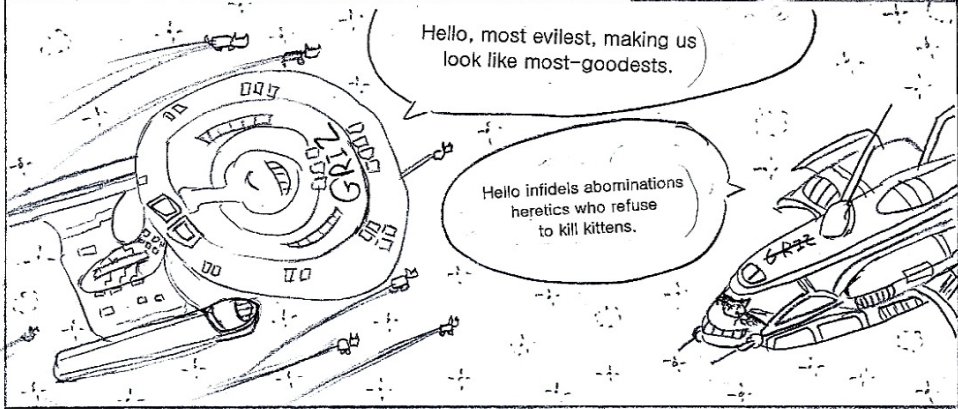

Work that brain!

Later, in the lulz shuttle.

We'll do the flying and the saving, and you will do the science and the hacking.

Lulz shuttle to secret agent, do you copy?

Hi lulz! I'm the secret agent from the second comic. Turn on the screen, Grizelolda has opened negotiations with the terrorists.

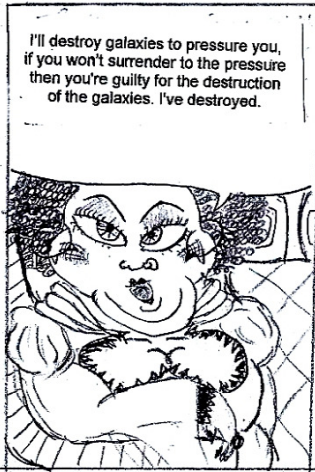

Hello, most evilst, making us look like most-goodests.

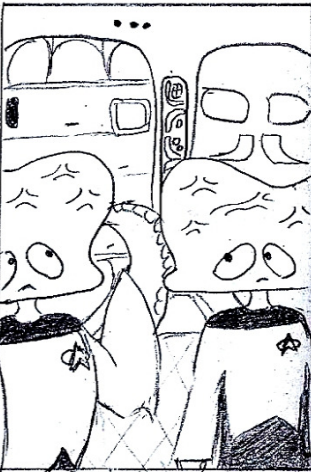

Hello infideis abominations heretics who refuse to kill kittens.

We're not scared of your galaxy destroying! We know you'll never dare to bomb our ship, you'll never risk hurting the file!

I'll destroy galaxies to pressure you, if you won't surrender to the pressure then you're guilty for the destruction of the galaxies. I've destroyed.

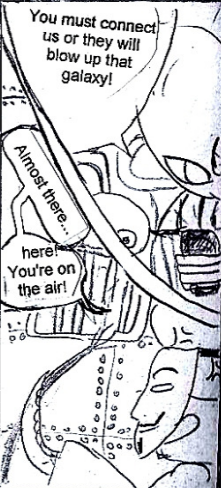

He-llooo... We are super evil, why would we feel bad about being responsible for the destruction of galaxies?

The file won't help you! Our cat-loving positive energies are stronger than any file!

So why are you so afraid of destroying our ship? You had plenty of opportunities...

You must connect us or they will blow up that galaxy!

Almost there... here! You're on the air!

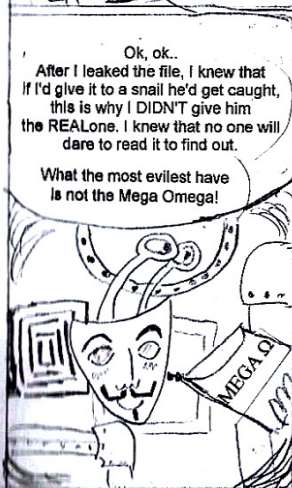

Ha-low Grizelolda, Xenu and the most evilst!

You are a sex offender too, Xenu!

No, I've been framed...

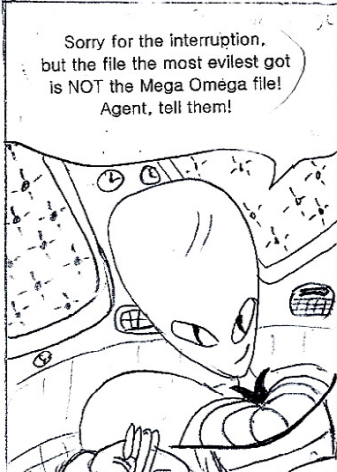

Ok, ok.. After I leaked the file, I knew that if I'd give it to a snail he'd get caught, this is why I DIDN'T give him the REALone. I knew that no one will dare to read it to find out.

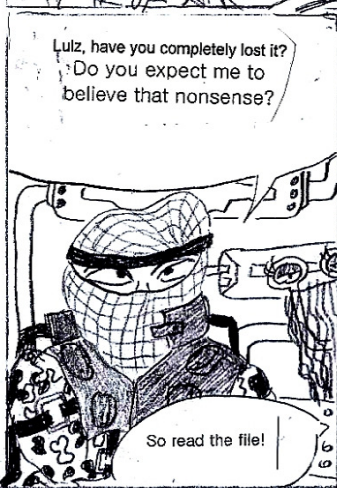

What the most evilst have is not the Mega Omega!

LULZ!!!!!!

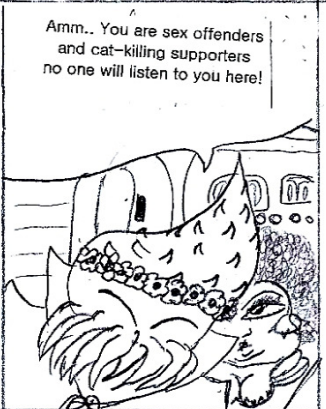

Sorry for the interruption, but the file the most evilst got is NOT the Mega Omega file! Agent, tell them!

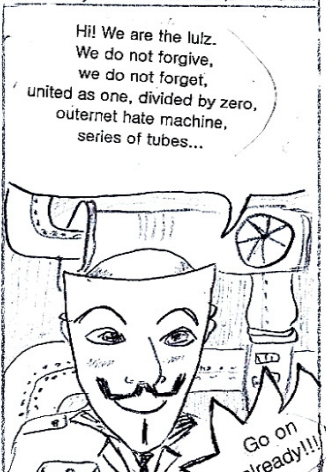

Lulz, have you completely lost it? Do you expect me to believe that nonsense?

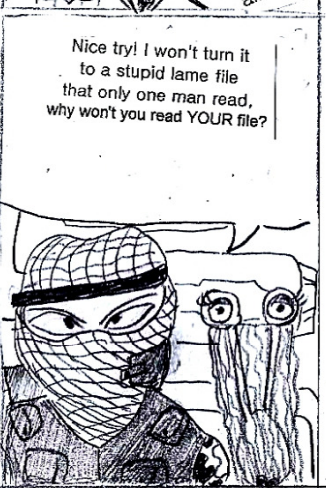

So read the file!

Amm.. You are sex offenders and cat-killing supporters no one will listen to you here!

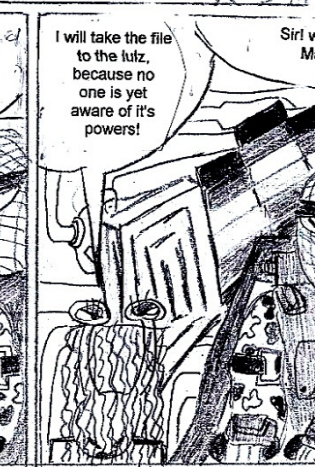

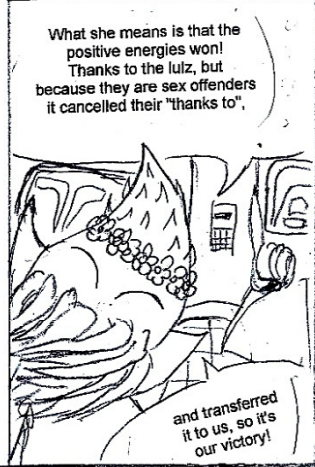

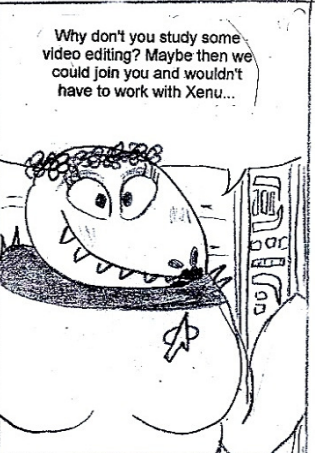

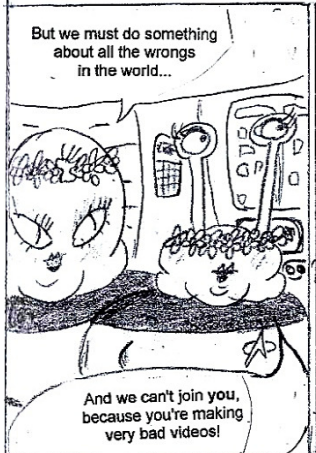

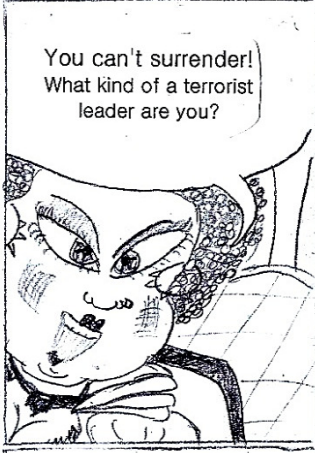

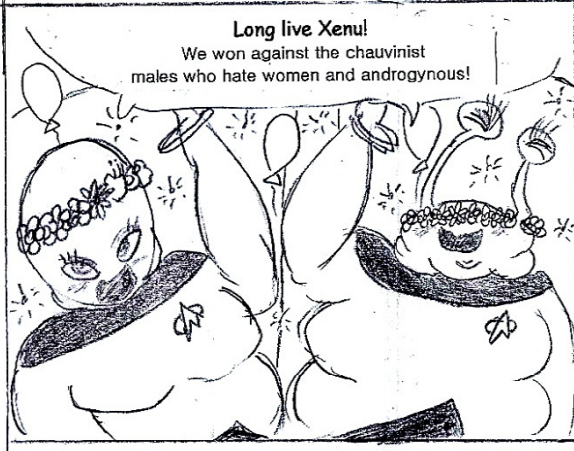

Hi! We are the lulz. We do not forgive, we do not forget, united as one, divided by zero, internet hate machine, series of tubes...

Nice try! I won't turn it to a stupid lame file that only one man read, why won't you read YOUR file?

Go on already!!!!

and transferred it to us, so it's our victory!

and start a cold war!

Yes, they are that stupid...

Great! I have a plan!

You prevented a genocide in the entire galaxy, remember?

And we can't join you, because you're making very bad videos!

Later, on the air again

Lulz!

we caught your friends!
We will kill the long cat!

Give us your file! If we will have
both of them then one of them
will have to be the right one!

This cat is a bit older
than we usually kill,
but this time we'll
change our costume...

Fuck the file! Take it!
Just don't hurt my friends
and the only female I ever
loved! Lolo!
beam me up now!

Listen to me! Another file
won't help you! We could
always claim this one
is also not the real one!

I got explosive belt!
I'd rather die along with
her than live without her!
And I will take all of
you with me!!!
hee hee hee hee

But...
NOW!

I'm not worried,
that's beyond the
comprehension
of our men...

Wow! You're really insane!
I'm impressed!

I'm in love!

-Love?

You're trying to be the craziest,
but you'll never reach the level
of insanity of someone in love

We have a culture of honour,
and we always obey the
biggest lunatic. From now on
we'll fight for love!

Lulzy really
got mad.
I must do
something...

Is that all
it takes...

You are the worst terrorists
I have ever met!!!

What she means...

...That Xenu's forces have 5
minutes to get off my ship
before we're starting a warm war!

Go lulz!

And you, snail,
were so brave!

See you now, Xenu,
claim that the victory
is not because of us!

At last some
appreciation
for the snail!

With the intelligent level
of Xemen I'm not very
worried, dear lulz...

And on the lulz ship

Lulzy, you can wake up,
the operation was success!

Wow! Is that me?
I'm thin, but I guess
I could diet...

Hil! I had a sex change
operation, so you
wouldn't have to!

I wonder where Lola is,
you'd think she wants
to see that.

Am I a female now?

He looks exactly
the same!

I don't care if you're a male!
What's matter is that I'm a
female and that's what
you're attracted to!

Universe
I hate
you!!!!!!!!!!!!

Amm...
Longcat was
supposed
to stall you...

I was distracted
trying to study
how to
edit videos...

me in a
heterosexual
relationship?
Forget about it!

End

The most evilest

fighting for love
