

LUIZ 5

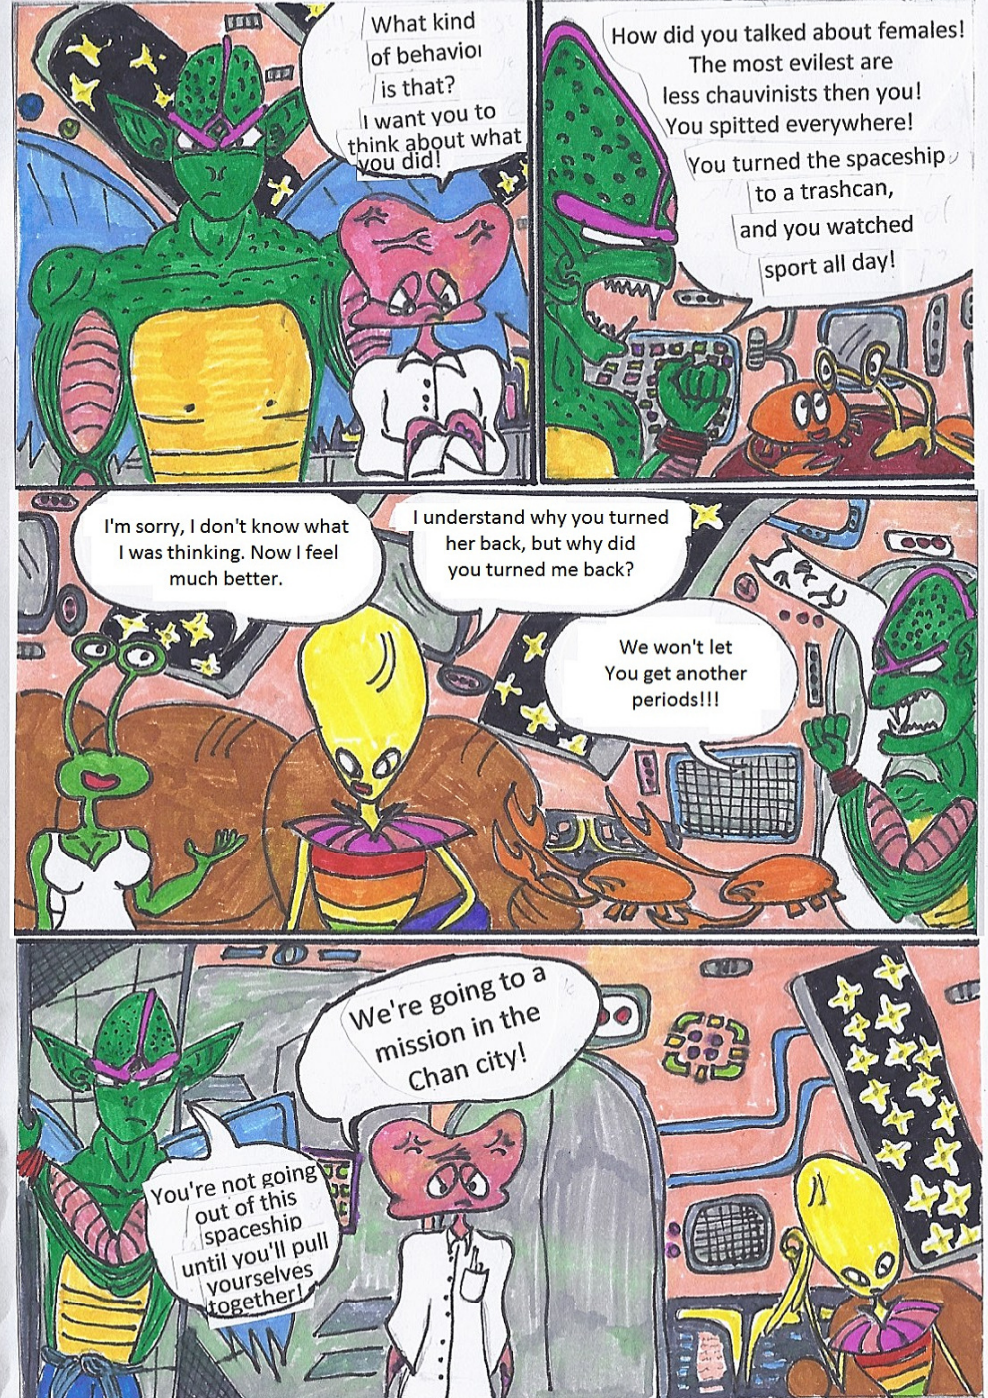

The final card

The LULZ news

Our videos are still lame!!!

What kind of behavior is that? I want you to think about what you did!

How did you talk about females! The most evil are less chauvinists than you! You spitted everywhere! You turned the spaceship to a trashcan, and you watched sport all day!

I'm sorry, I don't know what I was thinking. Now I feel much better.

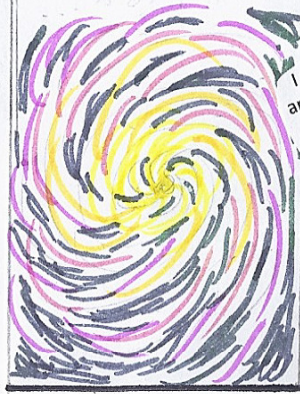

I understand why you turned her back, but why did you turn me back?

We won't let you get another periods!!!

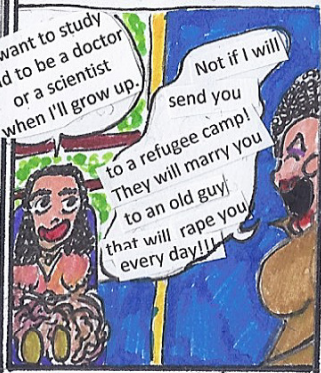

We're going to a mission in the Chan city!

You're not going out of this spaceship until you'll pull yourselves together!

I can blow up galaxies and everyone will cheer me...

I can make little girls cry, and they'll still vote for me

I want to study and to be a doctor or a scientist when I'll grow up.

Not if I will send you to a refugee camp! They will marry you to an old guy that will rape you every day!!!

Nothing is endangering my position of power!

This is what Xenu tried to warn me about... So what? I will rule the universe until I'll die? I did my work so good, that they won't even be sure if I were a dictator. They maybe even won't remember me!!!

No!!! If I must die one day, I'll become the greatest dictators of all times!!!

If I must die, every living being in the known universe will die with me!!!

Xenu, is that you? That was fast!

I could feel your megalomania even in the adage of the universe!!!

You must fight it!!!

You know, Xenu, I watch the way you work. You surround yourself with idiots and get rid of anyone who could actually help a revolution...

I was thinking about it a lot, you must have a plan in case you'll have to turn against me...

But I didn't find any way you could...

And then I got it! The LULZ! And their supporters! They are your emergency plan!

This is why you always told me not to get rid of them, "So I things wouldn't get to boring! You are planning to fight with them if you'll have to!

This is why I must destroy the universe now! Because after the last war there's no chance they'll believe you!

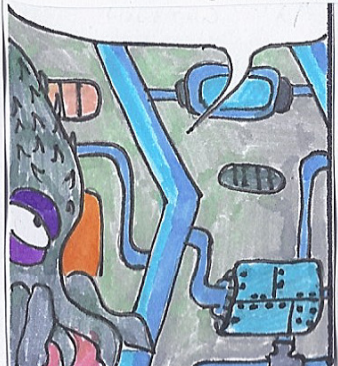

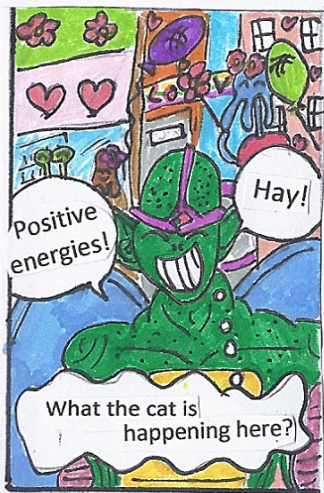

And they're weaker then ever now, so go on, Xenu! Try!!!

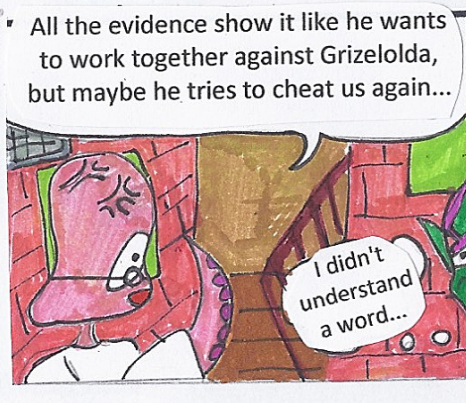

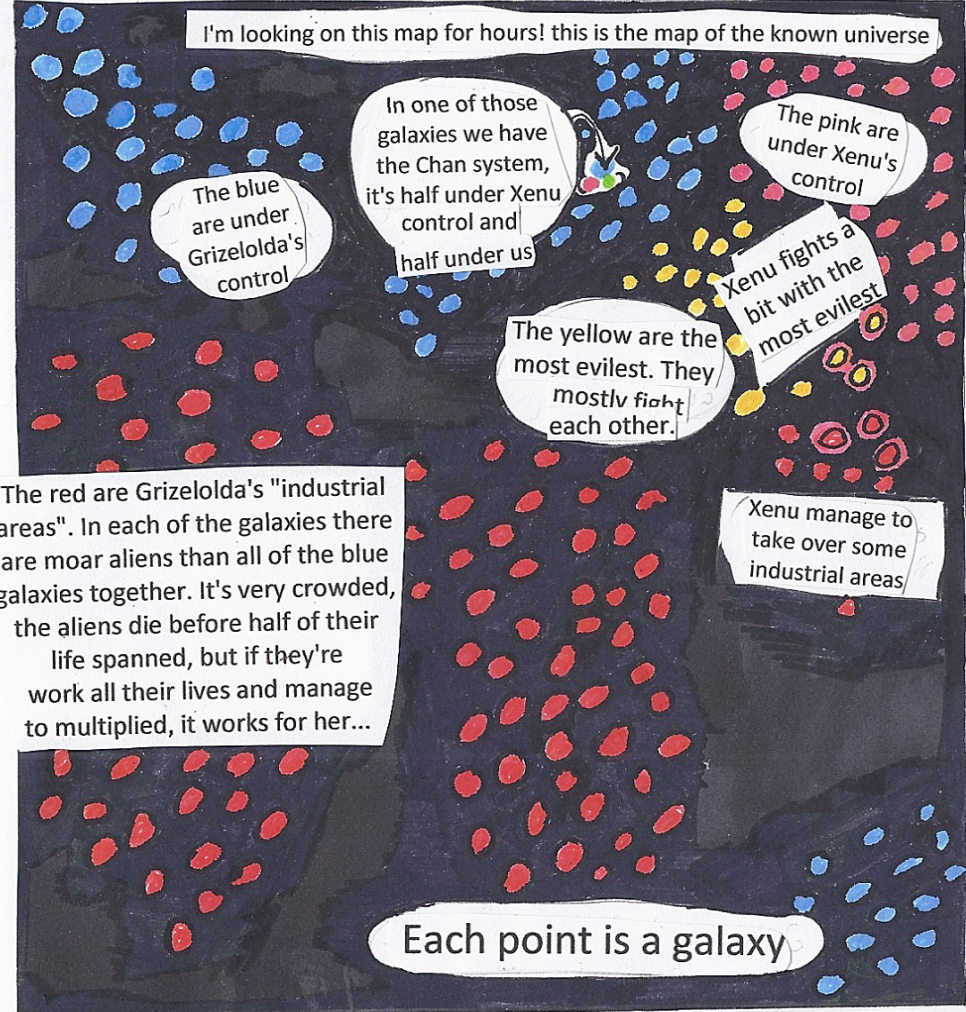

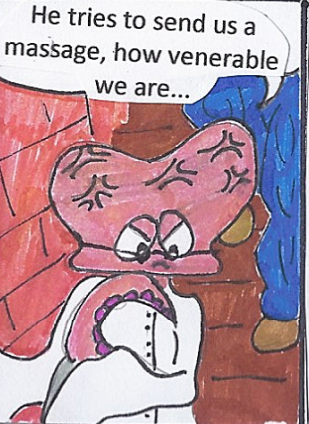

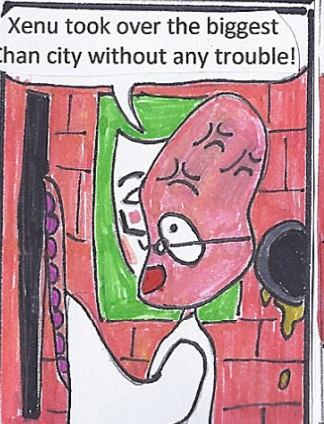

Grizelolda! Ruling the universe in pointless if I'll do it without you!!!

I don't want to rule without you! but if there won't be any universe there will be nothing to rule off!!!

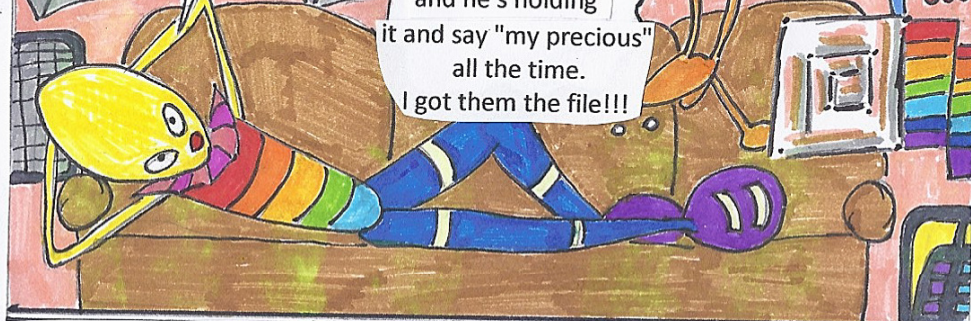

So we must do the dance that'll bring you luck with your date!

I didn't care how she looks, I loved her personality, but when we change sex our personality changes as well, and then it's not the same...

They gave the Mega Omega to longcat, and he's holding it and say "my precious" all the time. I got them the file!!!

I was meant to suffer from a broken heart all my life!!!

Do you even listen to me?!

Lola is in danger!!!

Yes, your parents were annoying...

Lulzy!!!

I will help you!!!

Look!!!

Hello to you love birds...

I wish we were love birds!!!

Your friends are stocked in the Chan city, but I'm going to let the cat save them!

We don't need your favours!!

Grizelolda wants to destroy the universe!

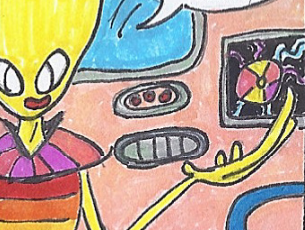

Why should we believe you?

Shut up and listen! I gave you an example to what I can do. Your friends will tell you. We have a common enemy!

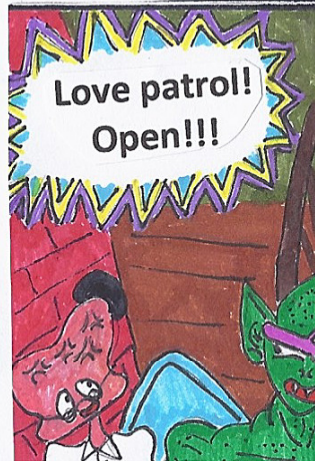

This is another one of his tricks! He'll try to make us busy in some imaginary war!

Two options, maybe and maybe not... And if it's not, do we stand a chance against him if he'll attack?

Even if it's nearly impossible...

Love patrol! Open!!!

We have no choice!

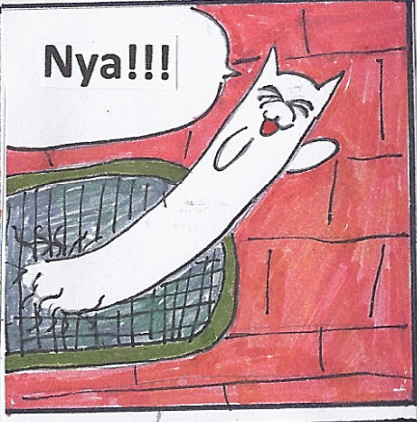

You are being accuse of being aliens without reproduction system, who can't experience romance!

We will help you! We will operate on you! Choose a sex! We want to see you in a romantic partnership in three weeks!

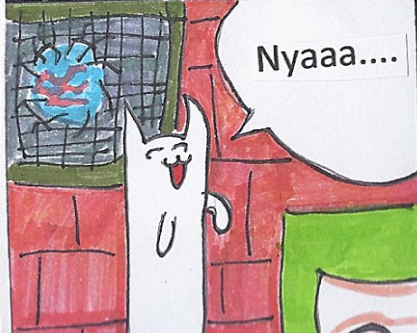

It was an honour to serve with you...

Nya!!!

Longcat! You came to save us!!! I thought you only say "My precious" all day...

Nyaaa....

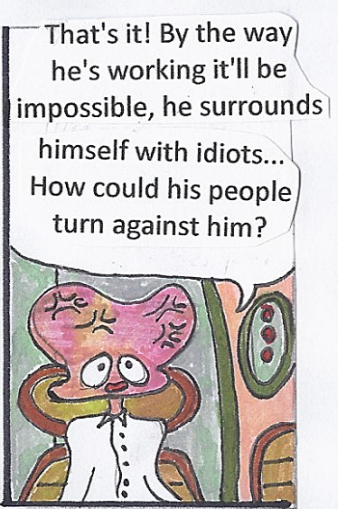

This is what Xenu told us...

It goes with what Lolo was thinking...

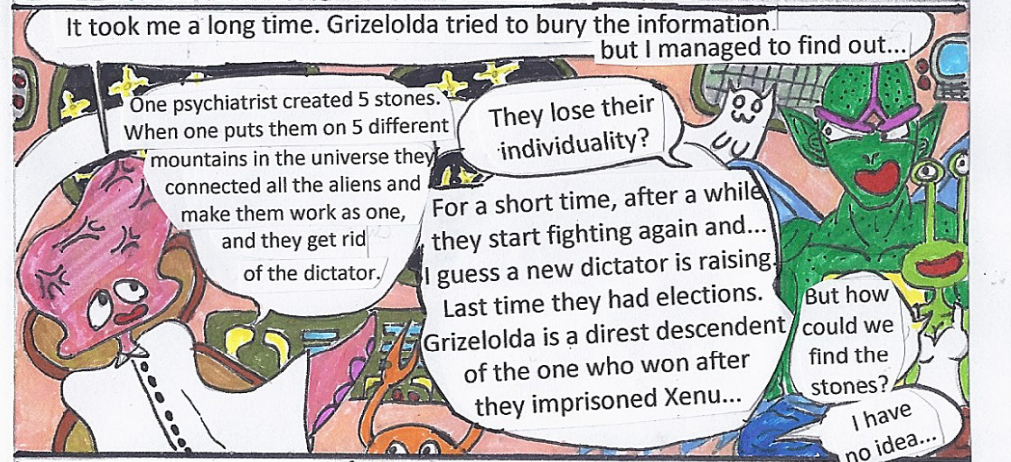

I was thinking about something for a while... How did they imprisoned Xenu in the first place?

His top members of leadership turned against him, and put him in prison.

That's it! By the way he's working it'll be impossible, he surrounds himself with idiots... How could his people turn against him?

It took me a long time. Grizelolda tried to bury the information but I managed to find out...

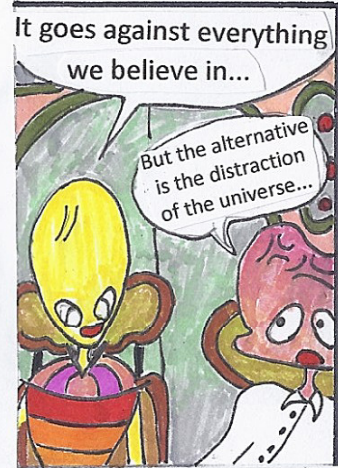

One psychiatrist created 5 stones. When one puts them on 5 different mountains in the universe they connected all the aliens and make them work as one, and they get rid of the dictator.

They lose their individuality?

For a short time, after a while they start fighting again and... I guess a new dictator is raising. Last time they had elections. Grizelolda is a direct descendent of the one who won after they imprisoned Xenu...

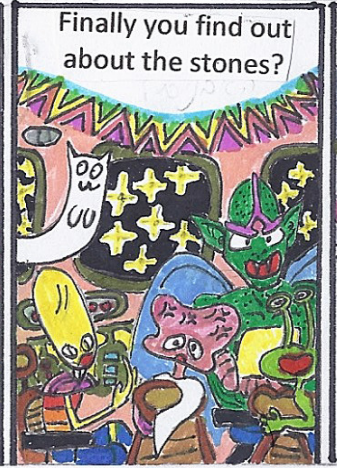

But how could we find the stones?

I have no idea...

It goes against everything we believe in...

But the alternative is the distraction of the universe...

Finally you find out about the stones?

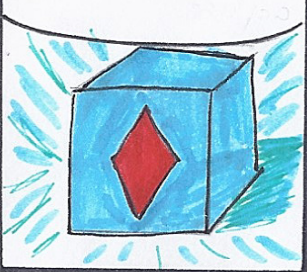

Calm down, I could have beam myself to your spaceship any time I wanted...

Do you feel like saving the universe?

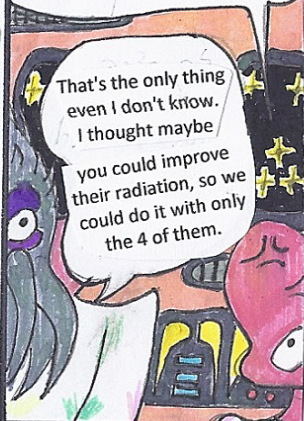

Look, idiots, I hid the heart stone before I went to prison. It was still in the same place. The spade stone I found on a planet I occupied from the most evilst. For the club stone I had to take over the Chan city.

The diamond stone is the problem, it's in the personal safe of Grizelolda. She thought it'll be enough to hide one of them, because only all of them together could be a danger.

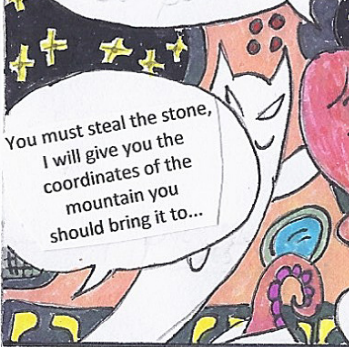

And where is the fifth stone?

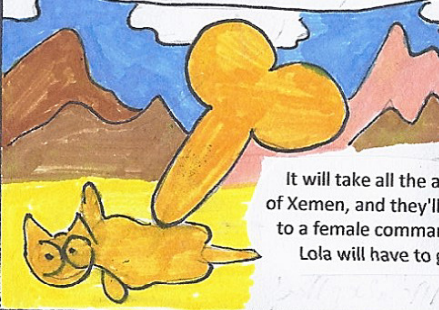

That's the only thing even I don't know. I thought maybe you could improve their radiation, so we could do it with only the 4 of them.

Grizelolda's personals are only big brain aliens, only I have a chance to penetrate there...

You must steal the stone, I will give you the coordinates of the mountain you should bring it to...

The spade stone is a big problem. It goes on the holiest mountain of the most evilst. The one that look like a giant dick that smash a kitten. This is the reason why they are chauvinists and hate kittens.

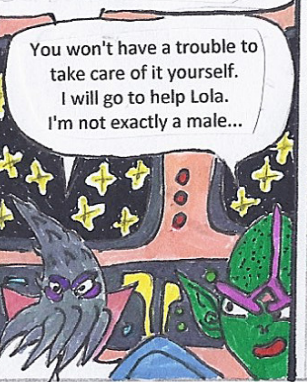

It will take all the army of Xemen, and they'll agree to a female commander. Lola will have to go.

The club stone goes on a mountain in the heart of Grizelolda's in a secure facility. It's the only mountain she knows about. We need someone to break in there.

Sounds like a mission for me!

The heart stone goes on a mountain in my territory, very isolated, it will be hard to climb.

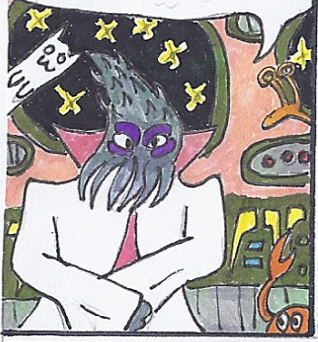

You won't have a trouble to take care of it yourself. I will go to help Lola. I'm not exactly a male...

No! I couldn't do anything that will make Grizelolda think I'm on to her! I must pretend like everything is usual. You'll have to fly to the top of this mountain. Our only hope is that Lolo could improve the stones!

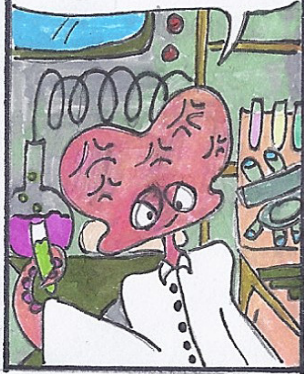

I know you heard it many times, but this time we really have a common enemy!

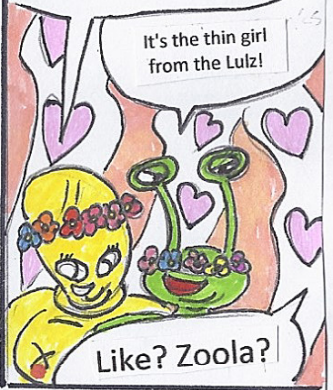

Let's make it clear! After we'll defeat Grizelolda it's me against you! So get ready!

I think I did it! 4 stones will do!!

Don't believe her!

It's the thin girl from the Lulz!

Like? Zoola?

It's so easy to manipulate the Lulz! How can we know that Xenu is not manipulating them right now?

She can't even take care of her weight!

Shut up!!! You helped Xenu to sabotage the Lulz, and in the end it turned out they have being right all along! You listen to Xenu and he almost led us to the end of the universe!

Listen to Lola!!! (If we'll get out of this alive I will go on a date with you)

Not so fast, Lulzy, will you be interested to know that all the weapons I gave to Lola's unit are not working?

Hay! it's you!

To easy...

We came to install the new air conditioner

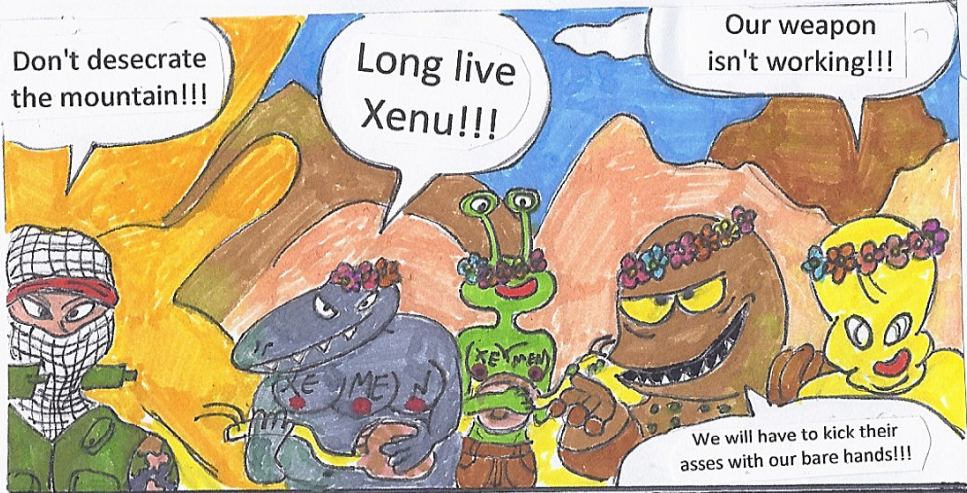

Oh no! we brought LH cable instead of A3, That means that we will have to put you to sleep...

Hold it right there, Lolo!

I'm about to release a gas that won't harm me, but will kill any big brain alien, witch is all the aliens in this building, you don't want to be responsible to their death, so what do you say? Want to surrender?

I say that you should have release your gas before I released mine...

What have you done?! Tell me right now!!!

Don't desecrate the mountain!!!

Long live Xenu!!!

Our weapon isn't working!!!

We will have to kick their asses with our bare hands!!!

I will be there before the crabs!

That's close enough, Locolo!

Xenu? Can you fly?

I can do whatever I want! I'm Xenu!

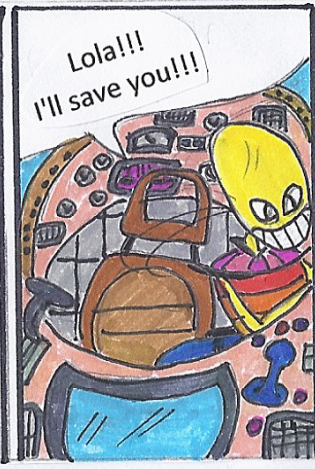

The headcrabs won't make it alive! My army of zombie crabs will take care of them!

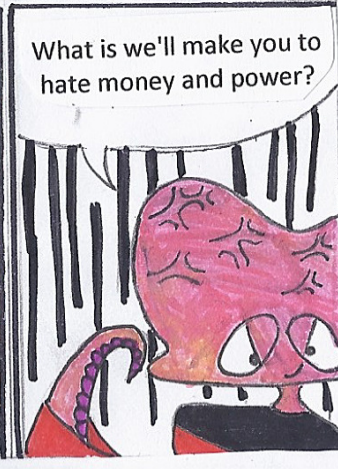

Crab murderer!!!

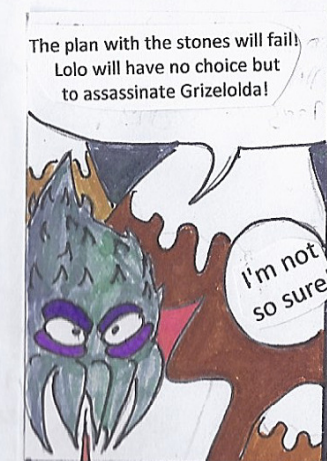

I thought about this a lot. You're really holding the world in your hands. How could we defeat the undefeatable? and then I thought...

Lola!!! I'll save you!!!

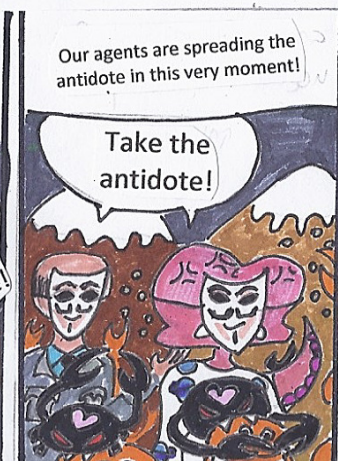

What is we'll make you to hate money and power?

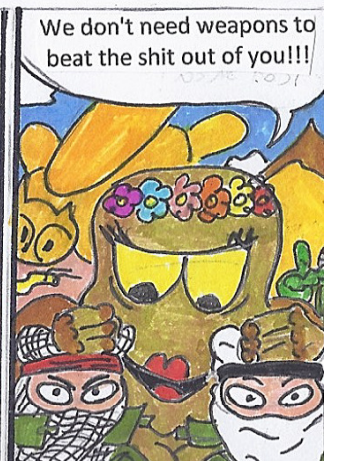

The plan with the stones will fail! Lolo will have no choice but to assassinate Grizelolda!

I'm not so sure!

Our agents are spreading the antidote in this very moment!

Take the antidote!

We don't need weapons to beat the shit out of you!!!

My gas is like watching all the episodes of Colombo in a consecrated way! The hard worker police man, putting all the rich murderers in prison...

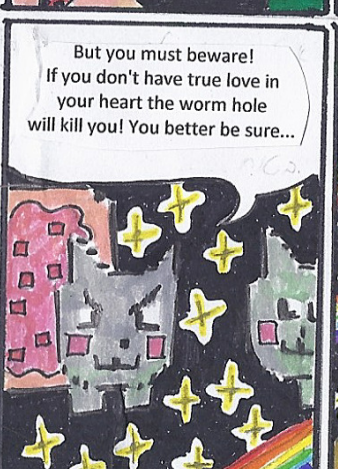

Even a gas won't help... Harry, Lolo! We must put the stone on the mountain before I will destroy the universe!!!

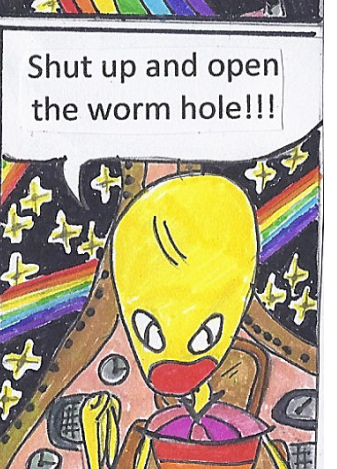

Lulzy! We'll take care of the stone! There is a way you could reach Lola immediately!

We can open the Nyan worm hole that will lead you to the planet where your true love is!

But you must beware! If you don't have true love in your heart the worm hole will kill you! You better be sure...

Shut up and open the worm hole!!!

You have defeated my crabs, so you can have the stone I snatched from you, but it won't help! I will run away! All of Lola's guns don't work! Lolo will have to kill Grizelolda!!!

You know what I love about Lolo's brain? He's always one step ahead! He asked me "Of what Xenu fears the most?"

Volcanoes!!!

The Worm hole

This is planet Kema!!! Lola!!!

Lolo! it's that mountain over there! Above the sweat shops!

Lola!!! I'll save you!!!

Look, he came to save his girlfriend!

For sale

Lulzy?!

What a chauvinist!

That's right! We don't need saving!!!

Lola! We have to take you to the hospital! We'll get you new eyes!!!

You claim you love me! If you love me, put that stone on that mountain!!!

The stone...

Fuck the stone! we have to cure...

I'll watch her!

Oh no! it's that lunatic! We can't stop him!!!

I'll have to date a blind...

I can see them, snail!!!

What's that?

We're connected telepathically!!!

It worked!!!

We failed! it didn't work! We're only connected telepathically! We must have the Joker stone!

Lolo! Listen! it didn't work!
You must assassinate Grizelolda!
We stand no chance against her
army that from some reason is going
to help her destroy the universe!

Xenu! Hear me!
I don't want to destroy
the universe anymoar!
I hate power and money!

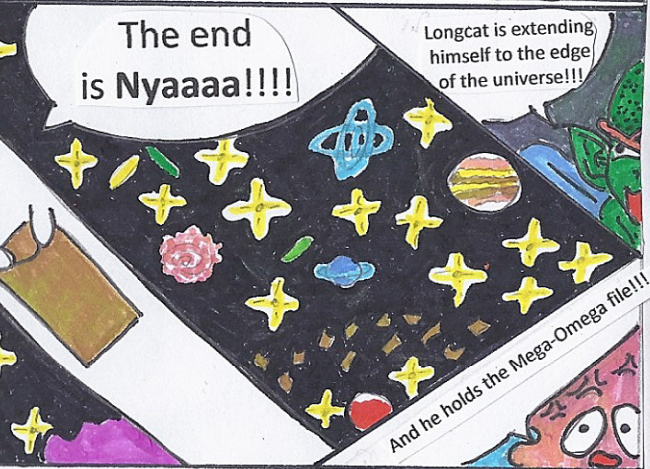

All that left is my will to
rule together with you!!!

It's only the gas
influence! I don't
want to kill you,
but I must save
the universe!

Lola!!!

The end
is Nyaaaaa!!!!

Longcat is extending
himself to the edge
of the universe!!!

And he holds the Mega-Omega file!!!

I got it! The Mega Omega has
the power to fit itself to our
interests, and the Joker stone
can turn into every card we hold!
Both of these powers save us!
And only longcat can reach
the edge of the universe so fast!

The Mega Omega is
the Joker stone!!!

Go Longcat!!!

Wait a minute!
Xenu is a dictator!!!!

Why did we work with him when it was obvious that he works with Grizelolda?

Wait! I *do* need saving!

Our leader is a dictator too!
Sends us to suicidebombing kittens?!
Why cant *he* do that?
What did the kittens do anyway?

(Somehow I'm here)
Why do we agree to work in sweat shops so Grizelolda could have moar money?!

After the intervention of all the aliens together

So... what do we do to pass the time here?

don't worry, my love, we'll get out of here!!

How horrible is to be in a cell with a couple...

I did it! Your beautiful eyes are good as new!

I was sad because I was thin, but it could be worse, there are aliens without eyes or legs... sorry, Lolo, I meant, that can't walk...

Look after the stones! The aliens are starting to fight, they need the Lulz like never before!

Wow! fabulous!

When we were linked I understand what you need! I gave you both the reproducing system of snails! Both of you have both of the sexes, and your personality will stay the same.

So Lulzy is also a female, and both of us have the very same sex?!

I always loved you!!!

Lola, Will you marry me?

The marriage institution?!

If you support that institution you can forget about it!!!

* End *

No moar suffer and distress
 The Lulz have saved the universe!
 And we won't let it be the same!

so wouldn't you join us even though our videos are lame?

Where you
 raped as
 a kitten?

Your videos are
 still lame!

No.
