

The Study of Lulz

Long-eyed aliens:
males and females.
Undecidable.

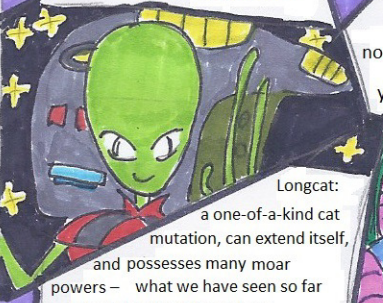

Long-fingered aliens:
males and females,
fall in love obsessively

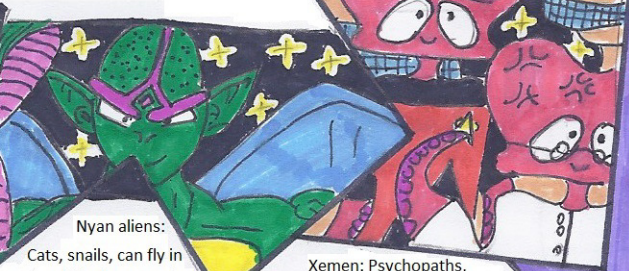

Blankogians: take over planets and start
civilisations of ancient Egyptian culture,
don't have males and females.
Become really crazy when they fall in love.

Zlalas:
3/4 long-fingered alien,
1/4 long-eyed alien

Manekians: Can fly, strong,
no males and females – only need
one to breed,
you'd better not mess with them...

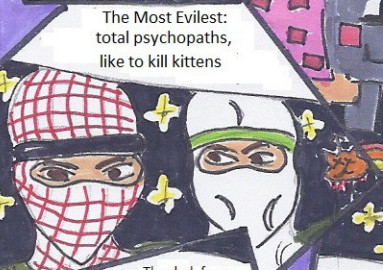

Big-brained aliens:
Genius, have a long life span,
don't have males and females, the
strongest empire in the whole known universe

Longcat:
a one-of-a-kind cat
mutation, can extend itself,
and possesses many moar
powers – what we have seen so far
is just the tip of the iceberg.

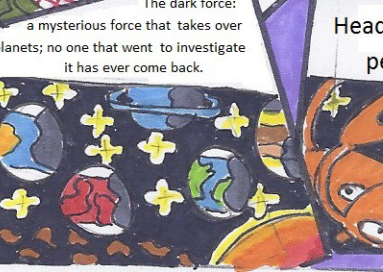

Nyan aliens:
Cats, snails, can fly in
space, spiritually connected
to the cosmos.

The Most Evilst:
total psychopaths,
like to kill kittens

Xemen: Psychopaths,
like to protest without telling
anyone what the protest is about.

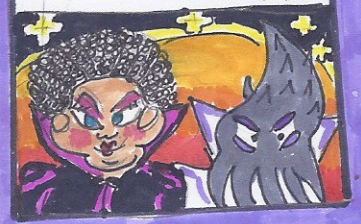

The dark force:
a mysterious force that takes over
planets; no one that went to investigate
it has ever come back.

Headcrabs: The
perfect soldiers.

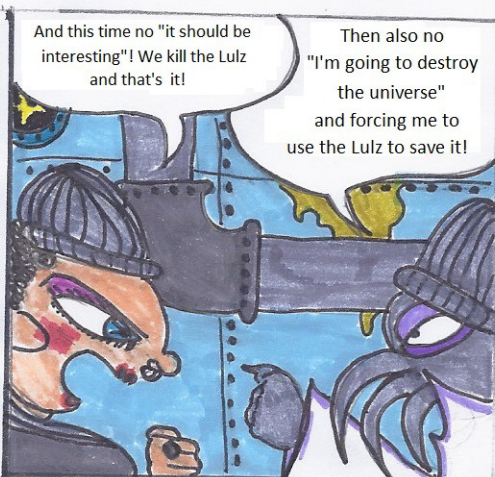

Xenu
and
Grizelolda:
The cruel X-
dictators
(X?)

Agreed! I don't care about ruling the universe anymoar, I've already been the undisputed dictator, and it's not even a challenge for me to do it again! From now on my only goal is **revenge!!!**

Oh, I managed to take back control over all of my people... All but the rebel branch off course.

I think you're right about the challenge... We only came out of prison, and we managed to take over the major firms in 98 galaxies, and they don't even know it's you. Those stupid activists are still willing to follow me, even though it was them who got me into prison, and... how is it with you, most evilst?

Your madness! Tell us what to do!
We worship you! From now on,
The Most Evilist are working
in the name of love!

Stop it!
How many times do I
have to tell you? I'm **not**
your leader!

(Why did they send me
to a mission in the
desert?)

I know nothing about love!
She doesn't love me back!

Exactly!

This is
what makes
you insane!

Grandpa! I've finally
found you! You've
got to listen to me...

No! No! No way!
It's bad to bring
characters
from the future!

But...

Do not want!
Go back to where
you came from!

No thanks, not interested, bye-bye!
Actually... just one question...

Oh... So suddenly you
want to know what will
happen in the future?

It's always the same - no moar
ideas, so they bring someone
from the future! I object!

But this is
really important...

Not telling you!

If she'd love you back, you'd be...
married? Because she doesn't, you're
insane! And you'll stay this way as for
long as you care about it.

He told her he's a female.
It sounds crazy anyway...

No,
if she'd loved him back,
it would have been just an
amusing story for the
grandkids...

That can't
be all the
difference!

Come on, don't be childish,
just tell me if Lola
is your grandma...

Yes.

Halleluiah!
So happy you came!
Stay for ever!
Future characters
are the best!
So I and Lola
will be in love
in the end!
Awesome!!!

Er... Not exactly...

What do you mean by
"not exactly"?
I'll smash your face!

Lola only wanted
to have a child...

And you're
even going
to tell me
I agreed
to be
pregnant
for her?

What do you want from me?

To follow you!

What did I do to deserve this?

Stop
pushing
in!

Universe, I hate you!!!

I choose now not to agree to Lola!
Do not want "Only to have a child!"
Now vanish!

I'm still here.

I can
see.

Maybe you can't
resist her?

I hate myself...

And that's not all...

Well, what else?

What?!

Remember Like?

The bitch who tried to incriminate me?

You're my grandfather from both sides. My parents are half-brothers.

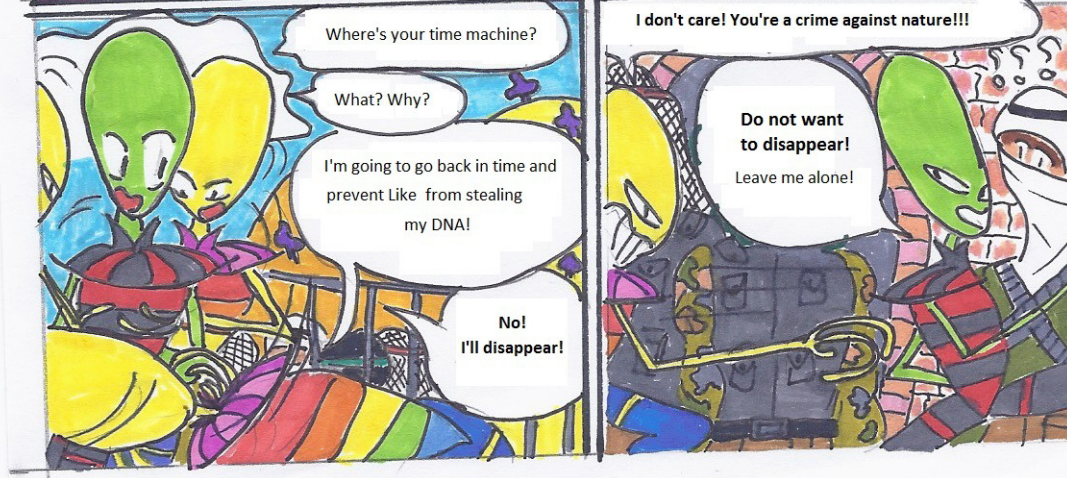

Why me?

It took my parents some time to find out. My father had no idea that you were his father.

Xenu sent her to frame you, to say that she was asleep. It gave her an idea: She could steal a DNA sample from you while you were asleep. She wanted kids, but no father that will get in the way...

So me and Lola had a girl?

Don't interrupt! Yes, you had a daughter, and you and Like had a son. I'm their son.

Where's your time machine?

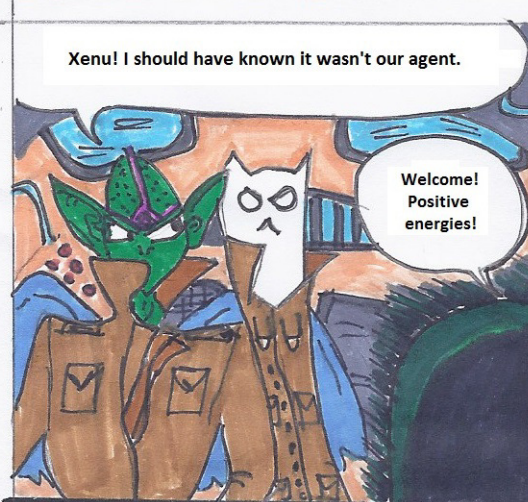

What? Why?

I'm going to go back in time and prevent Like from stealing my DNA!

No! I'll disappear!

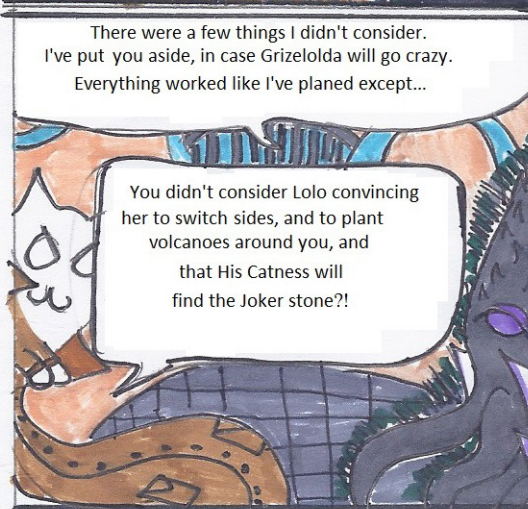

I don't care! You're a crime against nature!!!

Do not want to disappear! Leave me alone!

Xenu! I should have known it wasn't our agent.

Welcome! Positive energies!

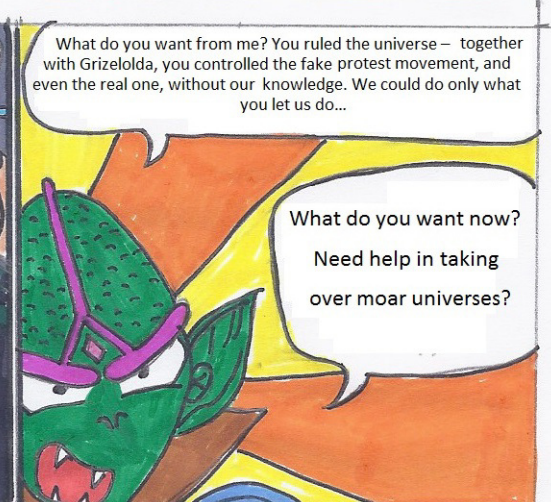

There were a few things I didn't consider. I've put you aside, in case Grizelolda will go crazy. Everything worked like I've planned except...

You didn't consider Lolo convincing her to switch sides, and to plant volcanoes around you, and that His Catness will find the Joker stone?!

How will that help? When I'm alive at least you know who's in control. Without me all the forces will have their own effect, and you won't stand a chance.

So why did you bring me here - to convince me to give in? Because you're wasting your time...

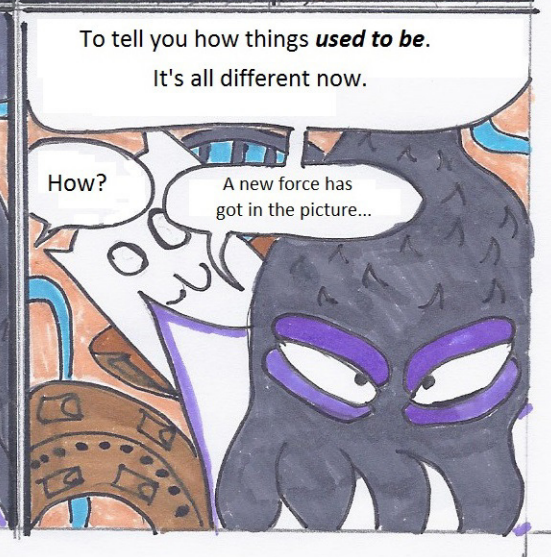

What do you want from me? You ruled the universe - together with Grizelolda, you controlled the fake protest movement, and even the real one, without our knowledge. We could do only what you let us do...

What do you want now? Need help in taking over moar universes?

But what now? Even without us the same forces will be back in power. Without Grizelolda some huge firms will take control, and they'll manage to take over the protest movements and to create enemies like the Most Evilests.

What if I'll kill you now?

To tell you how things *used to be*. It's all different now.

How?

A new force has got in the picture...

But, wait, why did you come back to the past?

A new force has come into the world. It's going to ruin the current balance of forces. In the future, anyone who came closer to the sucking area didn't come back. Many have tried to investigate, and failed. All we could do was just run away. But soon there will be nowhere to go...

And you think the current Lulz could stop that evil force?

The Most Evilists! They're religion fanatics. If you could lead them, perhaps they'll be strong enough to stand up to that force without being sucked in.

Do you expect me to lead a bunch of psychopaths who are only looking for reasons to murder?

An army of believers could prevent that force from taking over them and delete their memory!

And why this specific time?

Lolo sent me and told me to find you.

And this is as far in the past it's possible to go back to. When you used the stones you've reset time. We can't go back any earlier than that.

What?!
Is it impossible to ever go back to the time before we've used the stones?!

Nooooo! So Like is already pregnant from me! I can't prevent it!!!

Stop thinking only about yourself!

What new force?

In the beginning we lost a few planets in one of the industrial area's galaxies. The Coconut Way, if you know it...

Only from the crossword puzzle...

Ha ha ha...
I see I should have talked with Lolo...

So we lost all connection with those planets, they've disconnected from the rest of the galaxy. Every ship that went near them disappeared. They look like they're covered with black clouds and we can't see through. Later the suns went dark. In the beginning they were only a few meaningless planets...

Meaningless?!

Calm down and listen,

But now we've lost all of the Coconut Way, and we're afraid it's about to spread to moar galaxies.

So what do you want from us? Don't you have your own scientists?

I got it. You really have no choice but to send the Lulz away on some chase that might take years, so you could get us out of your way. No thanks! You took over the recourses - you'll have to investigate! Good day!

I'm trying to warn you. A terrible force is trying to take over, a force which money can't control. We must work together or we'll lose the universe...

All of the Big-Brained Aliens belong to Grizelolda, so send them to investigate. So is our Big-Brained better than all of them together?

Why do you think they sent us to a mission in the Coconut Way?

There are some planets there that we can take over...

I mean... Help them... Who wants to take over? Planets with cruel regime that we need to set free...

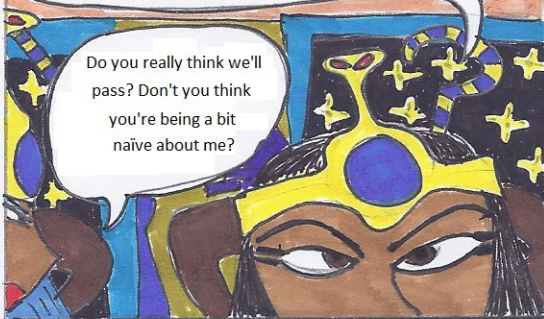

This is why you take one of the diplomats! You'd start shooting everyone and ruin everything... You're the worst negotiator...

I know nothing about negotiating. My specialties are usually related to hurting people...

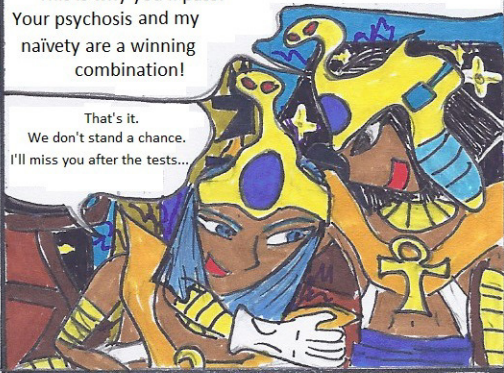

I'd have to watch over you... Maybe after the mission they'll let us pass the union tests! I can't wait!

Do you really think we'll pass? Don't you think you're being a bit naïve about me?

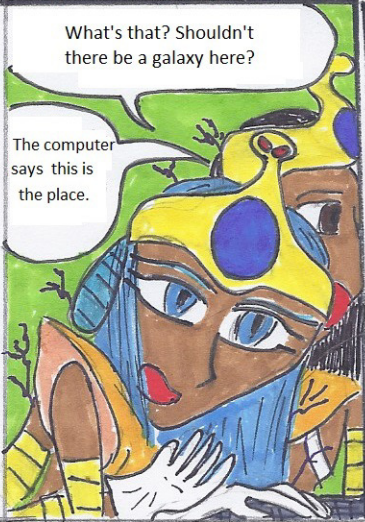

I can't believe it! You're worried! This is so sweet! This is why you'll pass! Your psychosis and my naïvety are a winning combination!

That's it. We don't stand a chance. I'll miss you after the tests...

What's that? Shouldn't there be a galaxy here?

The computer says this is the place.

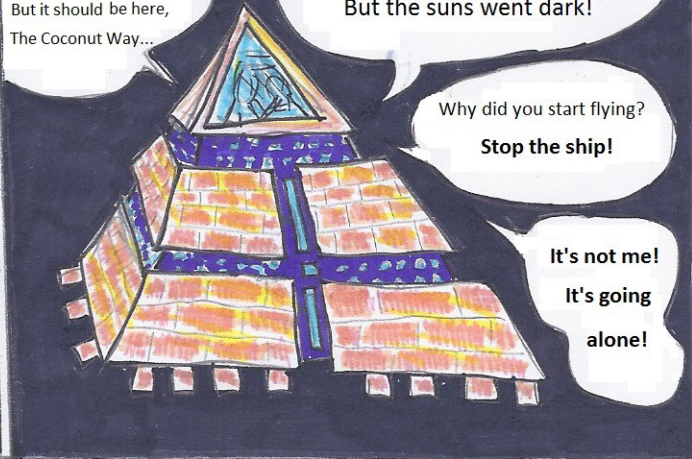

Maybe we missed it in the warp jump? But it should be here, The Coconut Way...

Look! it's all still here! But the suns went dark!

Why did you start flying? Stop the ship!

It's not me! It's going alone!

So, in short, snail, the Most Evilests are now following him everywhere, and I don't know what to do... Luzy is nice and all... But he's so old fashioned... He supports the marriage institution and all... What do you say? I don't want to hurt him... He had a sex change operation just for me... Maybe I'm just looking for excuses?

Yes, your parents... It's always the parents' fault...

Wait! What's that?!

Look, snail! A pyramid spaceship, and it's in trouble!

Are you ok?

Who?

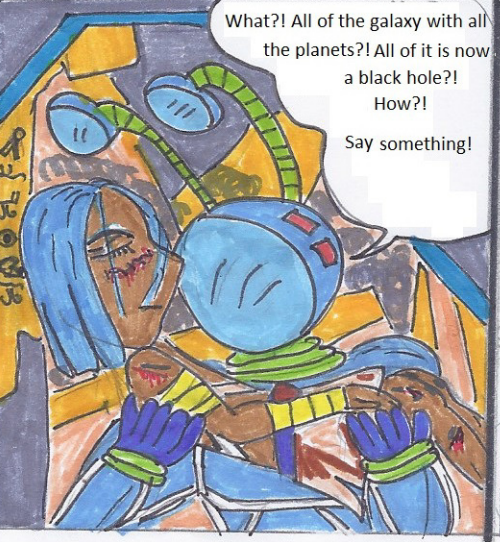

My other half... They took him away...

Be careful of the Coconut Way! All of the galaxy is a black hole! It's pulling you in... He can't remember anything... I managed... To get away...

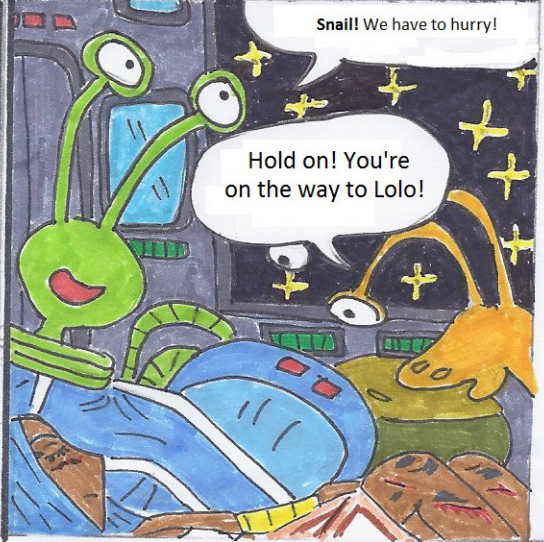

What?! All of the galaxy with all the planets?! All of it is now a black hole?! How?! Say something!

Snail! We have to hurry!

Hold on! You're on the way to Lolo!

He's on life support now, perhaps once he calms down we can get information out of him...

The Coconut Way...

The Coconut way... It's what Xenu tried to warn us about... He talked about a new force...

They assimilate you! And you forget who you are! Disconnected from the rest of the universe, forget your parents, and you have only one mission, to finish what is needed. But you can't finish...

I've got to study! I've got a seminar paper to hand in, and I must prepare for hieroglyphs class...

You know the hieroglyphs - it's your mother tongue! You're not from this planet! You're not a student!!!

And I must finish it today, because tomorrow we're meeting to plan the creative protest against raising tuition fees!

Tuition fees for what?! You're a soldier in the special Blankogian force! Some evil aliens have taken over this planet!!!

Hello!!! Can you hear me?

Friends, I have an emergency here...

So do we...

Grandma! And Lolo! You haven't change a bit! I have something for you! Information from... You! In the future!

Who are you?

He's Lola's and mine grandson. He came from the future.

Wow! You're my grandson? Me and Lulzy are going to have grandchildren?

No! Leave me alone! Do not want to study Art History! Do not care if I'm talented!

No!!! Philosophy isn't interesting!

Do not want to read this book! So what if it's interesting?

Stop shooting at me! Do not want to study!

I don't know if it's a good idea to bring characters from the future...

Now I know Lulzy will agree to have kids without being together! Will he also agree to be pregnant?

Grizelolda's experiment that went out of control? She tried to build a virtual world to distract all the smart people that might rebel, but it sucked the entire galaxy...

So we need to save those people...

But how? every spaceship that goes near there doesn't come back...

This is what I know too. Entire armies were lost in the future...

But this alien got away.

What did you do differently? How did you get out of there?

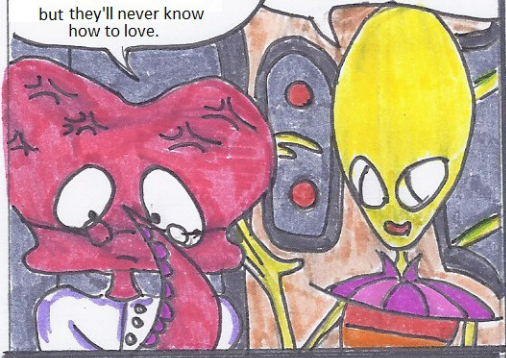

It was horrible... Just horrible... Even the army didn't prepare me for this...

When I ask you why were you immune to suction, what is the first thing that comes to your mind?

He was too innocent; I thought that we have no chance to pass the union tests. I should have told him the truth. I promise to change and do everything to pass, if I can only get my other half back! I'll tell him everything! I'll resign from the army...

You're constantly talking about him. Maybe that's the thing. If you really love someone you can't forget him and get sucked in... These students might be dating and talking about philosophy, but they'll never know how to love.

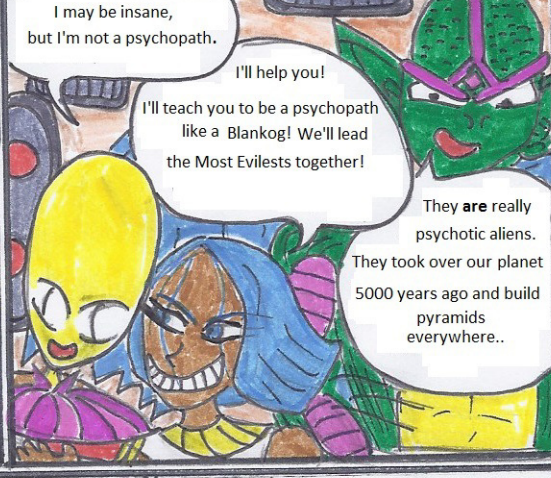

Wait, so why didn't the other one got sucked in? Maybe he doesn't love him back, just like Lola doesn't...

Don't say that! He did!!! I know it! He just... wanted to study... It's a punishment from the gods because I lied to him about the army...

Wait, Blankogians are known for to falling in love in a particularly insane way... There are not males nor females. Maybe you need to be both a psychopaths and in love not to get sucked in... This is why I thought Lulzy will help...

I may be insane, but I'm not a psychopath.

I'll help you!

I'll teach you to be a psychopath like a Blankog! We'll lead the Most Evilists together!

They are really psychotic aliens. They took over our planet 5000 years ago and build pyramids everywhere...

me?!

The Most Evilists! An army of psychopaths who's working for love under your command.

The Most Evilists! Listen to me! Your prophet is speaking! (I don't believe I'm doing this) **Today we're going to fight for love!** Because no one is more insane than someone who's in love! Look at my Blankogian apprentice!

Those we are about to attack kidnapped your other half! What will you do to them?

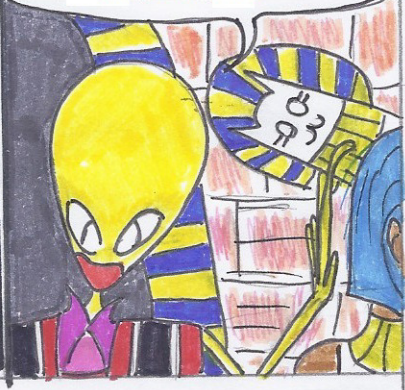

Well... I'll find that force that sucked him in and I'll personally break every skull there. And if they're giants I'll get inside them and give them cancer so they'll die slowly...

Yes. Thank you...

As you might have noticed, Blankogians turn into complete psychopaths when they fall in love, and we must show them that they're no greater psychopaths than we are! **We're going to attack the force that opposes love!** **Who's with me?**

I understand what you're saying... We need to kill everyone who had sex without being in love, because they desecrate love's insanity! (We'll need to delegate a religious leader that would sign a confirmation for couples - without it, they won't be allowed to fuck).

No! Sex is a good thing! It's the expression of love!

No, he means this is the sane expression of love! The "getting married and have kids" thingy isn't insane; we need to kill all the sane and leave out only the crazy ones who suffer from unrequited love.

No! We shouldn't kill anyone!!!

You don't get it: **we need to kill everyone who's not in love!** Even if they express it in a boring, sane kind of way, they're still in love, but whoever hasn't experience it isn't insane enough to live.

But what about, say, someone who's just been born and hasn't had the chance yet?

Let them run away from us until they get one! Especially if they're cats! **We must kill kittens!!!**

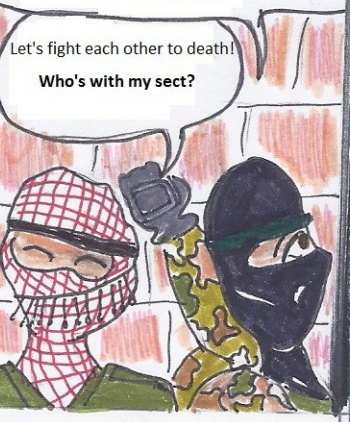

Kill kittens!!!

Kill kittens!!!

Er... You're all right! We need to kill everyone you say! And all of them are in this new force! And it's crazy, because we don't stand a chance. I'm the prophet, and I want to attack it! **Who's with me?!**

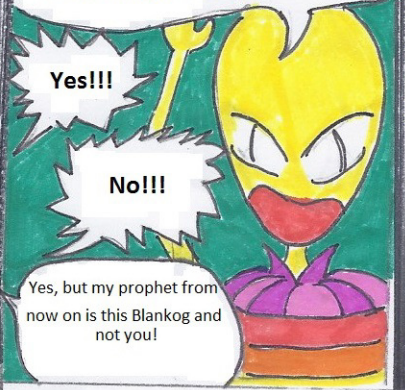

But we can't all be right! We need a bloody war to decide who's the rightest!

Let's fight each other to death! **Who's with my sect?**

I'll tell you which sect is right! But only after we'll attack the suction force! Follow me, and you'll know which sect was right all along!

Yes!!!

No!!!

Yes, but my prophet from now on is this Blankog and not you!

OK, follow me if you want. The rest, stay here for a bloody war...

OK! We're standing in front of the black hole... I'll Connect to my psychotic side, not to get sucked in! Those Most Evilists are annoying! "Oh... We want to follow you and do the opposite of what you say..." I really want them to shut up! If I had a chainsaw...

What's that?!

I have to finish my thesis...

I have to submit a seminar paper on headcrabs' digestive system...

What happened to them?

The same thing that happened to him...

Look, all your people and the headcrabs started to study.

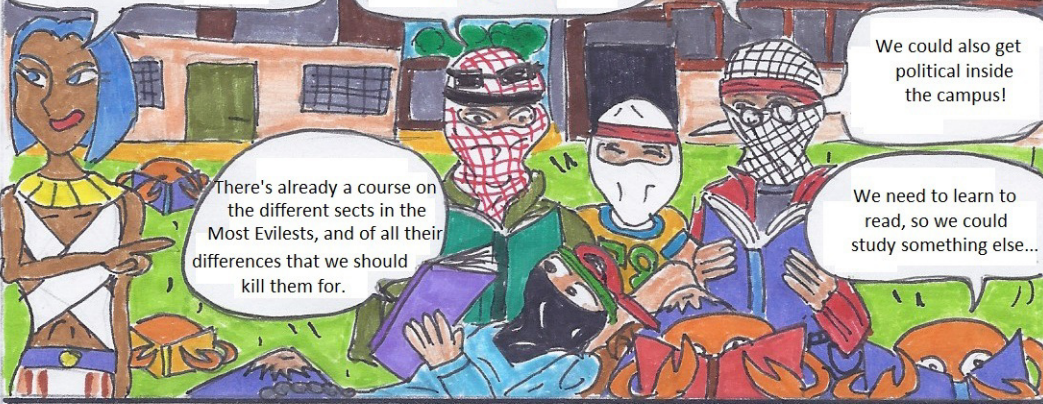

We could learn about different ways and reasons to kill one another!

We could learn about ancient texts that we need to burn for being a sacrilege!

We could also get political inside the campus!

There's already a course on the different sects in the Most Evilists, and of all their differences that we should kill them for.

We need to learn to read, so we could study something else...

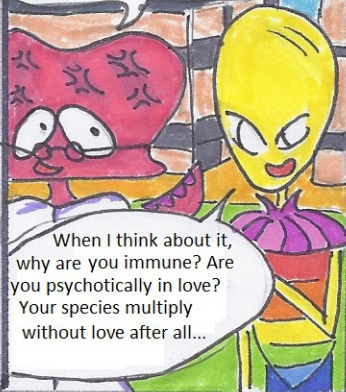

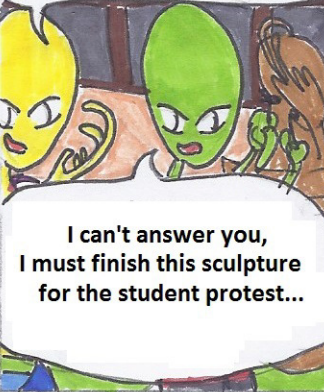

It's not working on those who are in love... Grandson! How did this force managed to take over? Most of the aliens are in love with other aliens, and some of them are psychotic, many should have been saved...

I guess the power of this force got stronger in the future and sucked everyone in. Nowadays there are still a few who are immune to it.

Because I've already been to this world, and I'm not coming back, even if they'll cut of all my tentacles! Now listen! Some of us are immune, so we need to change the other people to be like us. We need to make a research with an experimental group... No! Stop sucking me in! Lulz! Hurry! Awake psychotic love in the others before I'll get sucked in!!!

I can't answer you, I must finish this sculpture for the student protest...

When I think about it, why are you immune? Are you psychotically in love? Your species multiply without love after all...

Everything is working great; we managed to take over the universe surprisingly fast... And we were even able to convince the town hall to kick out all the Lulz supporters from planet Giraer, on behalf of the flat owner that no one knew who he was... Win! But now it is time for you to go back to politics...

Yes, yes, everything is fantastic, except from the simple fact that you sent the Lulz in to my matrix in the Coconuts Way...

They've been sucked in forever...

No! They're not! They've been sucked in so you could pull them out when you'll need them!

I hate it when they start fighting...

I'm not compromising for less than killing them and chopping up their bodies! And if you're building robots with their memories you're dead!

I knew it! I knew you'll find an excuse! I don't want to hear about the "more urgent matter than killing the Lulz"! We'll send all of the best scientists in the universe to stop the matrix, but we'll do it after we'll go in there and take down the Lulz!!!

But maybe it's to late to stop it...

Ok... Ok... We'll go into the matrix and chop! But there's an important matter! Your matrix is about to go out of control and to take over the universe instead of us...

I don't want to hear about it!

Talk about moods... Ok, we'll go in to the matrix, kill the Lulz, and then bring all the scientists to get rid of it... Listen, Most Evilist, the Lulz took over a sect of your people, is there a chance you could convinced the rest of them to attack them?

Hallo, Students, I'm you're knew instructor...

Hallo, other Most Evilists, the bloody war is about to start...

Is there a chance?! Religious inner wars are my specialty!

I must finish my research that quotes other researches, doesn't tell us anything new, and no one will read it.

Good luck!

Noooo!! I thought I finished my degree but it turns out I missed introduction to middle galaxies studies course in the first year...

Don't you get that this isn't what's important now?!
I must free people!

Look, girls! It's one of those "this isn't what's important now" guys! since they build the big universities in the Coconut Way to contribute to the inter-galactic knowledge, they began to turn up everywhere...

I read a research that says that 100% of them are suffering from an unrequited love.

Dear students... Want to pass this course with an A without studying??? Find the **Lulz** and kill them.

Prepare to die!
You're agreeing with us on almost anything!

Not now!!! we're trying to study!

Which courses are you taking?

Maybe they only need to get laid and it'll pass...

So let's do an experiment and a contest! We're betting which one of us will manage to fuck him, and we'll see if it makes him stop whining about the end of the world. And the winner could ask the others to do anything she wants, and we'll have to do it!

So I want in on the experiment.

But...

Oh! You girls think that someone thin couldn't convince the pathetic guy to sleep with her?

Lola, you look great! We need to fight the corporations' beauty ideal... (by studying and being too busy to do anything about it)

So I shouldn't have a problem winning this competition!

Lulzy managed to infect Lola with his madness! Now you try to do the same thing to...

Help! Terrorists infiltrated the campus and they're trying to prevent us from study!

Headcrabs! Snap out of it!

We need you!
The Most Evilists are attacking!

Headcrabs!
Your love for crab-food will set you free!

Ehh... Hiiiiii...

Lola! You must snap out of it!

Of course! Lulzy! I remember now! You... have been in love with me for years!

Good! Now we need to free the others...

Prove it!

What?!

Come with me to the dormitories and sleep with me right now!

You're not a student!
We're the Lulz! I'm Lulzy!
I have been in love with you for years!

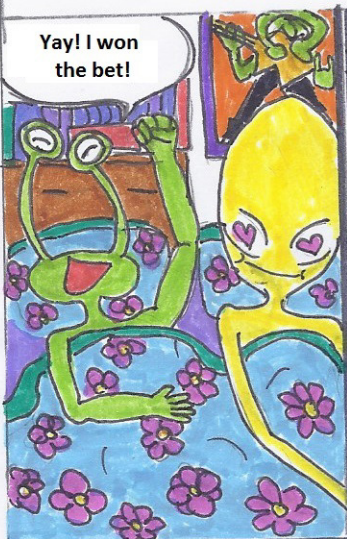

Wow! I guess in this reality whoever is psychotically in love can pass it on to others! If we'll infect everyone we could... Wait! I just infected Lola! **She finely loves me back!** Who cares about everybody else? **Thanx dark future!**

Lulzy managed to free Lola, so I can free you for sure! **Listen to me...**

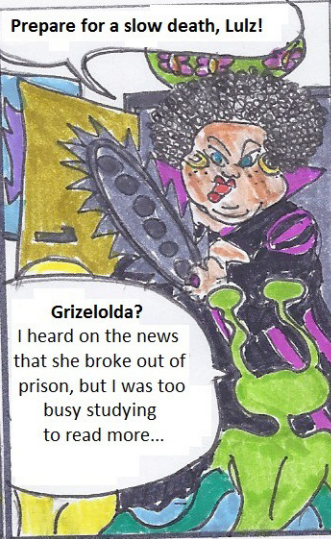

Don't move, Blankog!

Grizelolda!

I had to create an opening for all the exceptions, so I wouldn't get sucked in myself. I didn't think there would be so many psychopaths who're also in love. I forgot all of the Blankogs are like this. But I won't let you free others. Take him, The Most Evilists!

Yay! I won the bet!

Prepare for a slow death, Lulz!

Grizelolda? I heard on the news that she broke out of prison, but I was too busy studying to read more...

Lola! Run away! Grizelolda, take me! I'm the dangerous one of the Lulz! I went against Xenu! I haven't been sucked in!

He's trying to save me...

Wait! I remember!

Wait, so you didn't remember before?!

Save me! They... They are trying to prevent me from studying!

You bastards!

We're a good team!

I know! Sorry about lying to you, I just wanted people to read "Fragment" and...

Don't worry, I understand now why you enjoyed kicking the ass of all those enemies. And no one is going to read "Fragment" because it's written in Hebrewglyphs and...

Wait!!! I remember everything!!!

The Blankogs managed to create a rupture in reality! We can start freeing people!

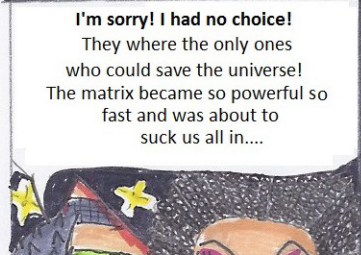

The Nyan-cats! it's the real world!

You did it! If enough ppl remember who they are it creates a rupture!

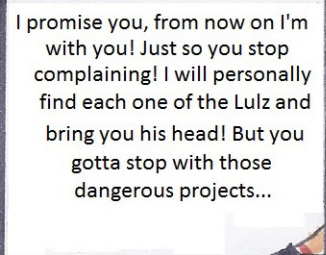

Grizelolda, we've got to get out of here!

Xenu!! You sent the Lulz here intentionally to dismantle my project!

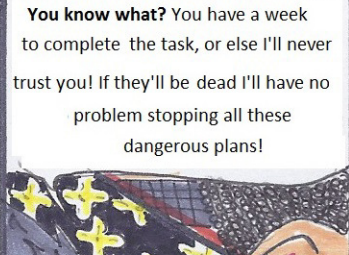

Wait, I'm not a student...

I'm sorry! I had no choice! They were the only ones who could save the universe! The matrix became so powerful so fast and was about to suck us all in....

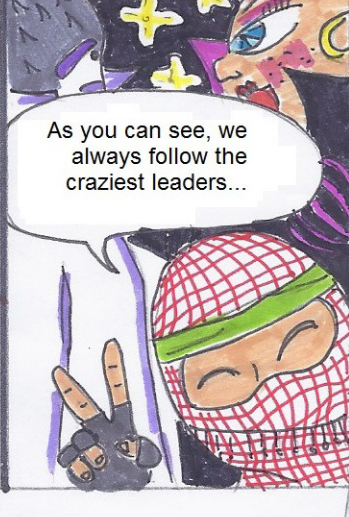

I promise you, from now on I'm with you! Just so you stop complaining! I will personally find each one of the Lulz and bring you his head! But you gotta stop with those dangerous projects...

You know what? You have a week to complete the task, or else I'll never trust you! If they'll be dead I'll have no problem stopping all these dangerous plans!

Good! So we saved that precious universe of yours! But what about the revenge on the Lulz? I was almost able to see a few of them, but those cowards are running fast...

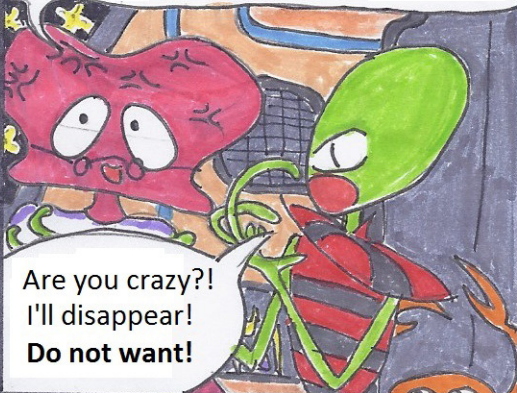

As you can see, we always follow the craziest leaders...

Nooooo! We both got pregnant! I did an abortion right away but Lola doesn't want to, and now both of them are pregnant from me!

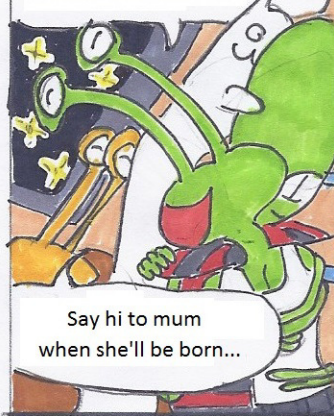

Ha ha ha... I knew you were going to get in troubles with a pregnancy one day...

Wait, everything happened because your kids didn't know they were brothers. If your son will know who his father is, everything will be different...

Are you crazy?!
I'll disappear!
Do not want!

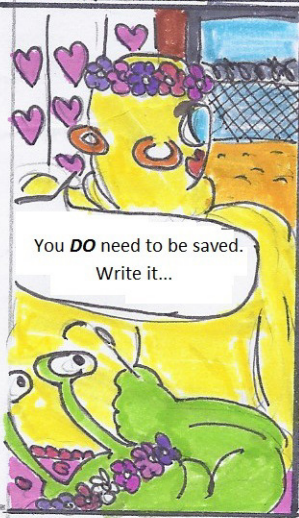

Tell us hi in the future!

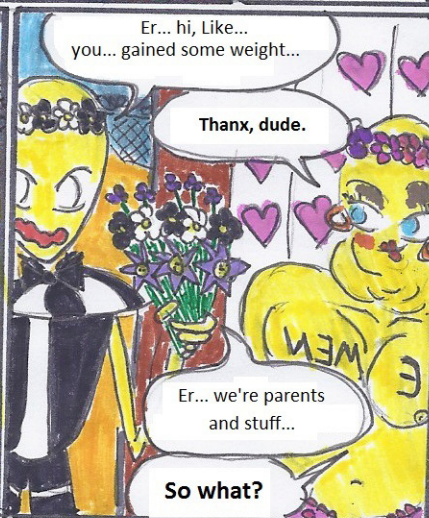

Say hi to mum when she'll be born...

Lola, we have offspring regardless of the marriage institution, and we're not that monogamous, because I have another kid, and those kids themselves will be a couple - isn't this lifestyle alternative enough for a couple with snail reproductive systems?

You **DO** need to be saved. Write it...

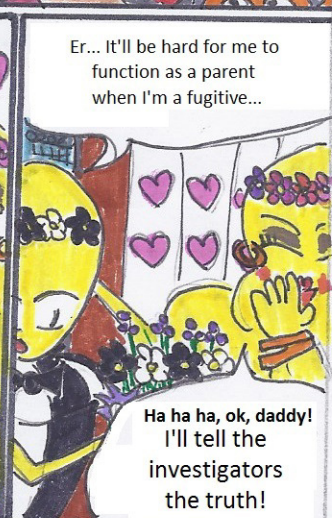

Er... hi, Like... you... gained some weight...

Thanx, dude.

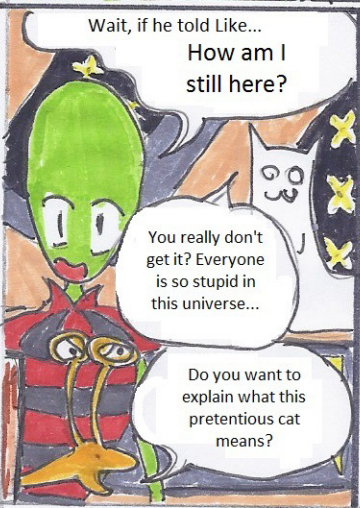

Er... we're parents and stuff...

So what?

Er... It'll be hard for me to function as a parent when I'm a fugitive...

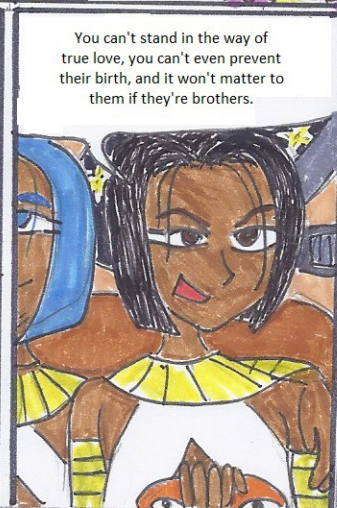

Ha ha ha, ok, daddy! I'll tell the investigators the truth!

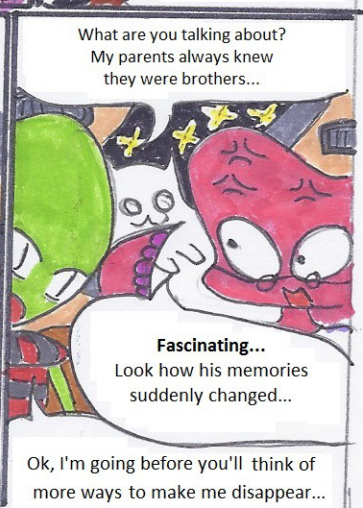

Wait, if he told Like... How am I still here?

You really don't get it? Everyone is so stupid in this universe...

Do you want to explain what this pretentious cat means?

You can't stand in the way of true love, you can't even prevent their birth, and it won't matter to them if they're brothers.

What are you talking about? My parents always knew they were brothers...

Fascinating... Look how his memories suddenly changed...

Ok, I'm going before you'll think of more ways to make me disappear...

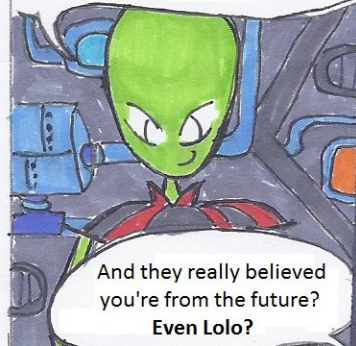

Yes, yes... I'm forgetting about it... even though I don't understand why I need to forget about it... When our true love is saving the universe every 5 minutes... No operation can heal a broken heart...

Lulzy... er... Why don't you forget about forgetting about it?

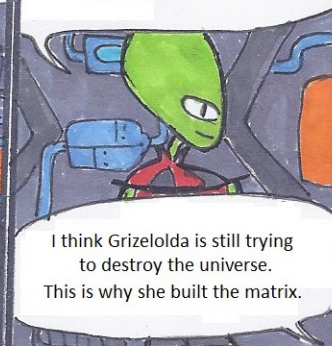

Mission accomplished! We have defeated the matrix and guaranteed a new generation for the Lulz, because "aliens like us are getting old so fast"...

And they really believed you're from the future? Even Lolo?

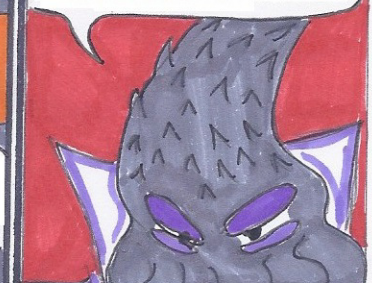

They may be smart, but they're limited in their way of thinking... They only argue if it's good or bad to bring characters from the future...

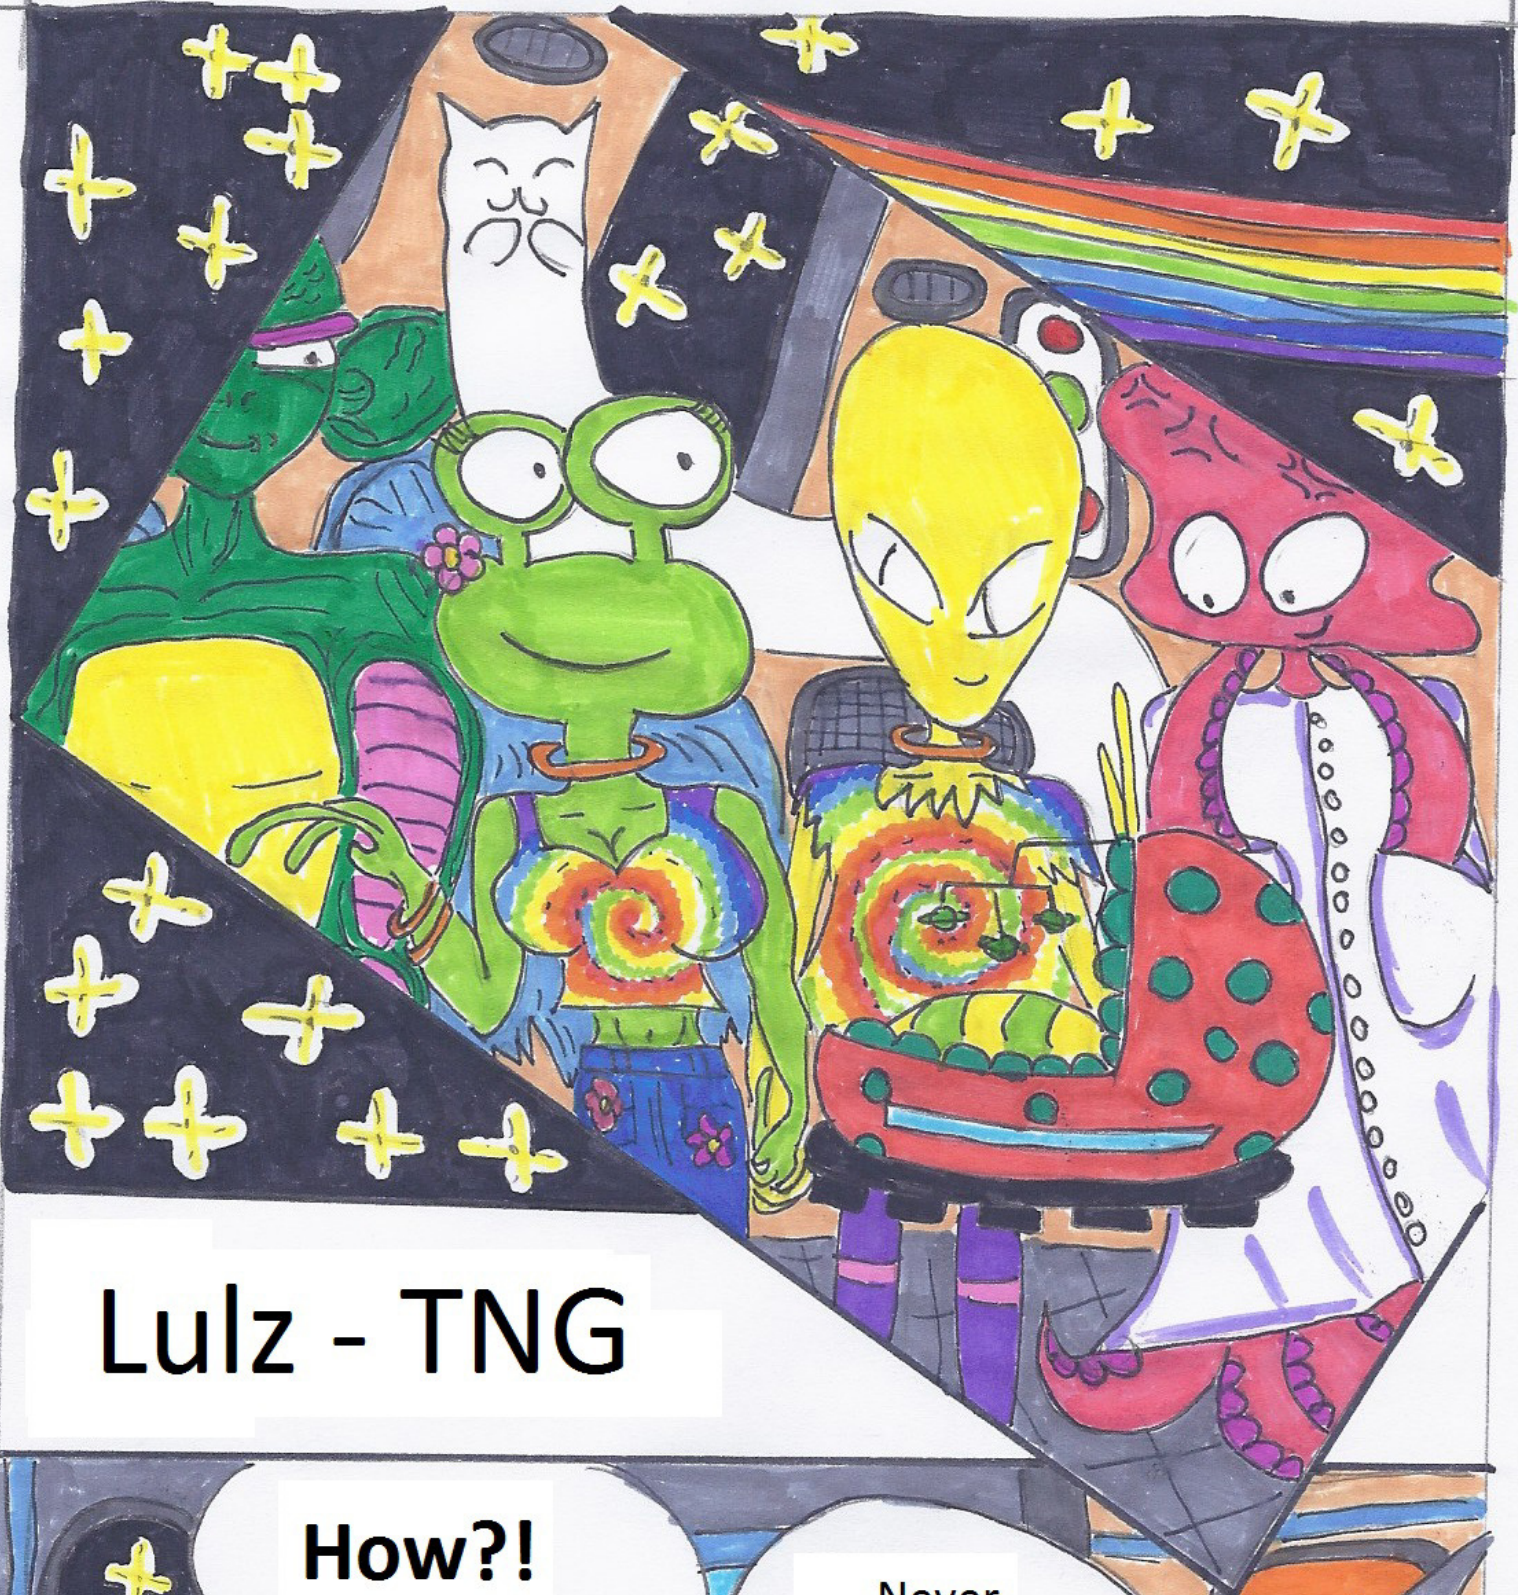

I think Grizelolda is still trying to destroy the universe. This is why she built the matrix.

I know she loves me, this is why she wasn't sucked in, but she's more dangerous than me... I love her, but I must save the universe from her. How ironic it is that I'm the only one who can save the universe...

I'll never let her hurt the Lulz...

Luiz - TNG

How?!

Never underestimate the power of a self-fulfilling prophecy...
