

The LULZ III

Trouble on the bridge

So -like- you're -like- the @#\$~#\$\$% LULZ group! It my friends -like- could see that I do Lulzy!

How are you -like- going to -like- prove that Xenu and Grizelolda are working together?

Grizelolda's strategy was always to buy both of the sides. So it's only natural for her to do it this time too...

Wow! you're -like- so smart! Tell me again how you've freed Xenu!

So... I told him -like- how can you -like- say you're a pacifist and -like- talk about class war? How are you going to -like- do the class war?

What do you think you're doing?!

I'm confused!

I was asleep! What kind of sicko are you that you -like- touch unconscious females?

Hil I'm Likel I'm -like- so fat and my ass is the size of Andromeda!

Don't be sad. Your super secret agent friend will return. We managed to get him in as a worker of the company that works with MDSA*. He's going to leak how Grizelolda is spying on the citizens she bought, and then he'll run to another galaxy.

He wasn't that sad when I left for 15 years to free Xenu...

*Multi Dimensional Security Agency

You talked to me all the time....

Talking -like- in my sleep maybe!

But... since you got here, we hardly left the bed...

Typical male!

If I agree once that means I'll always agree. It's so -like- rape culture!

I'm sorry! I was sure you were awake! Please don't leave!

Lola, we had to bring her to safety after she leaked to us all the poisons Grizelolda put in the cosmetic products...

What? You -like- eat in intervals of near-then 5 minutes? It'll ruin my figure!

Longcat misses only the efficient ones.

But you always told him "forget about it". Why are you mad now?

Why don't I have a shallow, pretty, fat girlfriend?

You will hear from me!

And indeed...

She's suing me for rape...

I don't think that's a problem.
Not even a court
will find him guilty...

It's not their purpose,
it's only an excuse to
arrest him for something!

How can we know it's not true?
He told me he was a female
once if you remember...

But she
wasn't asleep!

She didn't stop talking to me,
about the dilemma of the working
class between non-violence
and class war.

If Xenu and Grizelolda will
see it's working they'll
do it to others too...

I don't agree! Why should we do
all of the work for him? He was the
one who endangered all of us because
he wasn't careful and got in trouble!

He used the fact we got famous
for our struggle to make out
with every female alien that moves.

There's nothing
wrong with that...

But he's our
friend...

I'm telling you
she wasn't asleep!!!

It doesn't matter. they
found a way to catch him.
They want us to waste time to
prove his innocence. The
right thing to do is to ditch
him in to the volcano.

It's not about what's
wrong, it was just
inviting a setup!

But I did nothing to her!
I thought we're fighting
for free love too!

We're fighting Grizelolda AND
Xenu, so why don't you give
them moar reasons to make
us fugitive criminals?

We didn't warn
him either...

Suddenly we're
fighting for what's
comfortable for you...

You're not serious!

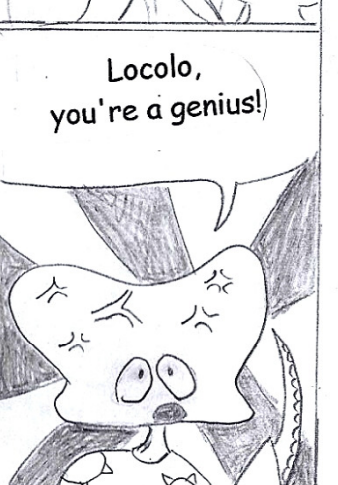

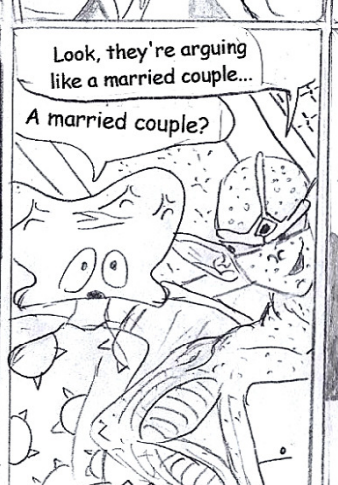

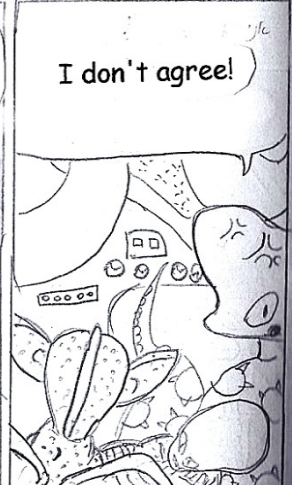

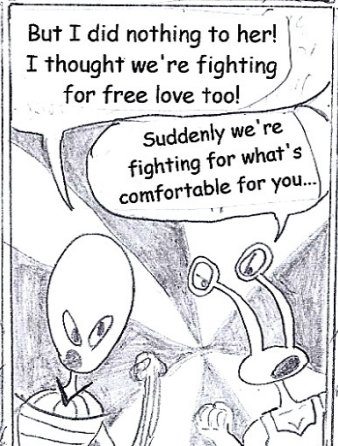

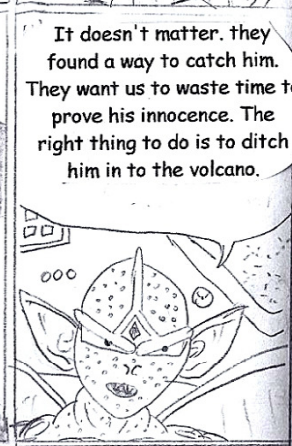

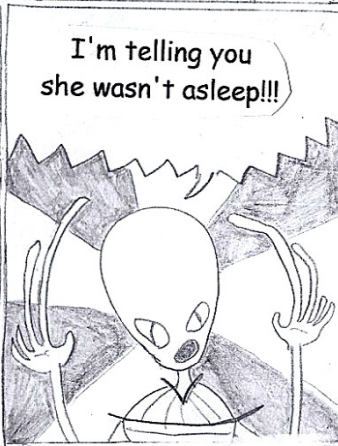

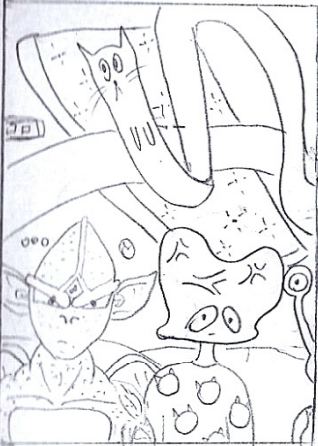

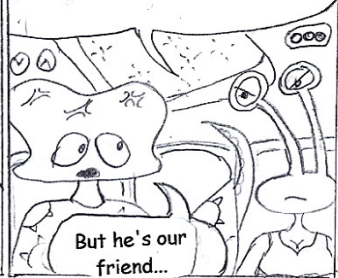

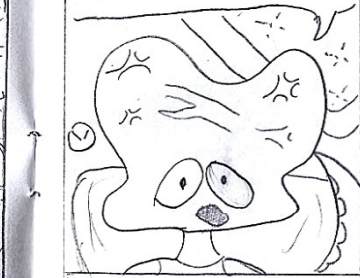

Lulzy! sacrifice yourself! For the
revolution! For the goal! 10 moar will
join for everyone who falls! Make
yourself fall so 10 moar will come!

I don't agree!

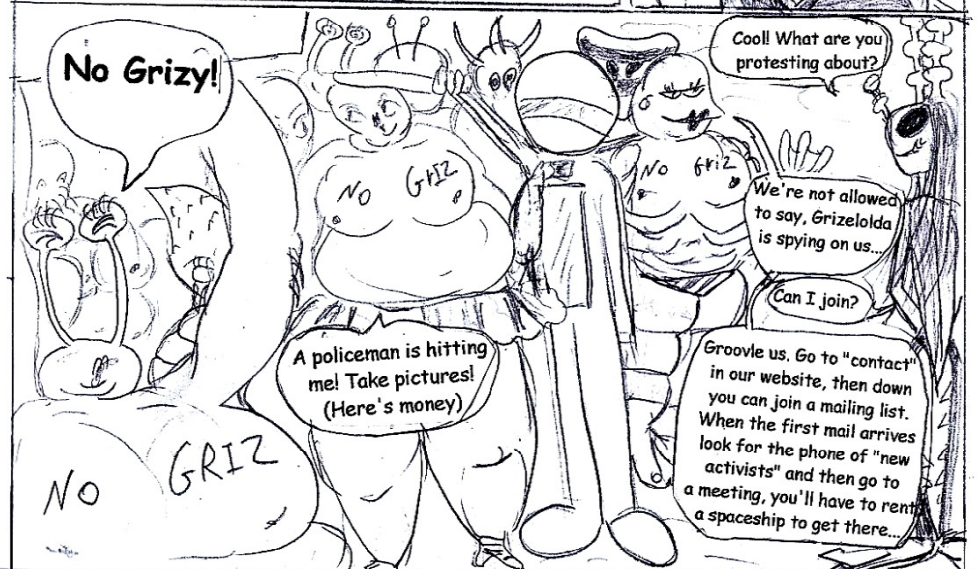

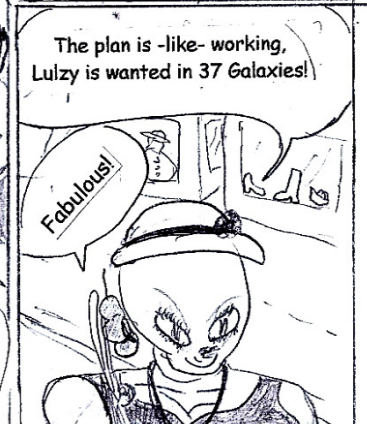

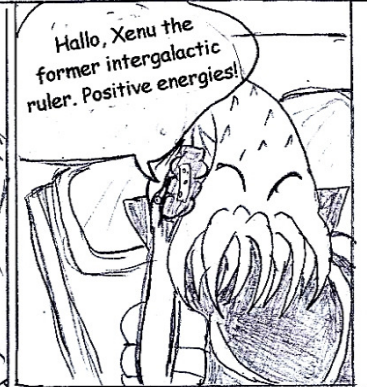

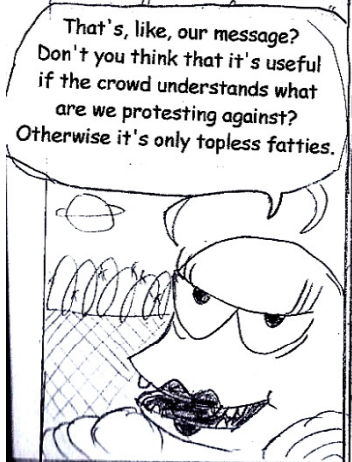

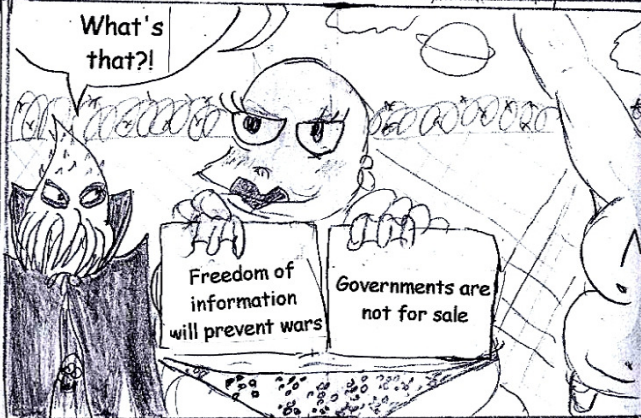

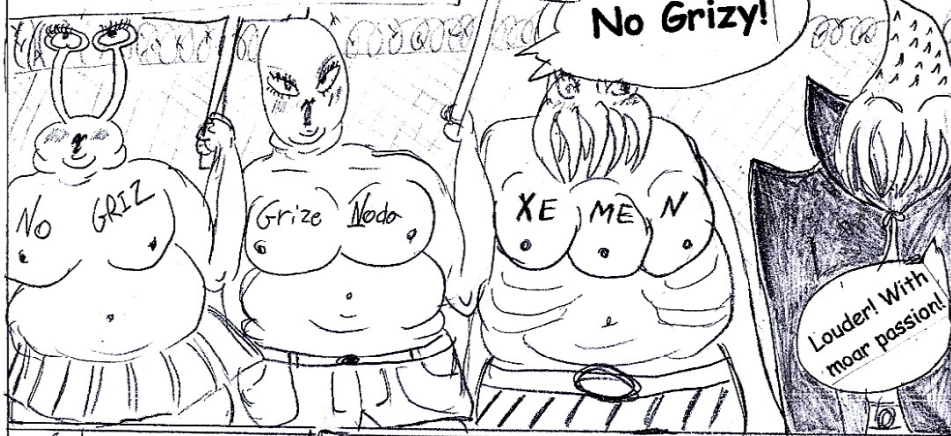

Look, they're arguing
like a married couple...

A married couple?

Locolo,
you're a genius!

Meanwhile in a Xemen training camp

Remember what you told us about your parents.

I guess...

The fact that they're lovers doesn't necessarily mean that they'll work together, quit the opposite! It's time to fight back!

Lolo has an idea, I know that brain...

You have nothing to worry about. It only looks like you are making up stuff about me and them...

You're right, and even if they'll know it's them we could say that they're wasting time to fight one another instead of me...

We found a transmission from the Lulz spaceship (at last)!

On screen! Find them and destroy them!

New on the job

Xenu molested me!

And so, in a never ending all night show on a dark side of some moon...

He made me DO things... things that shouldn't be done!

Me he molested the most!

You wish! ME he molested the most!

Me too!

How could I live with that??

Former crab-trainer

Are you sure they won't find us?

I told them we had to go after a lead on the MDSA.

Xenu's plan is not working. He said he'll pretend to work with Grizelolda but he's stuck. She's watching him and he has to do lousy things.

We need patience

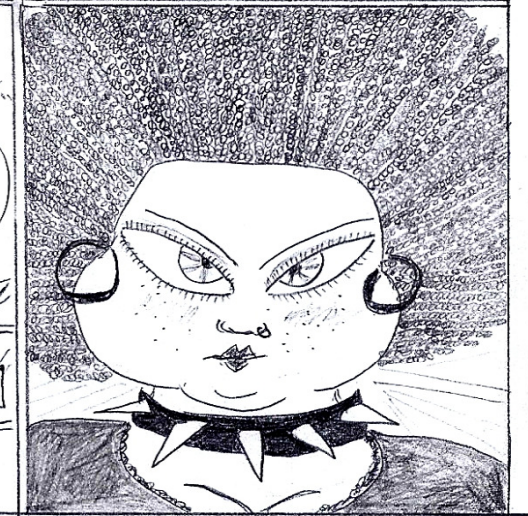

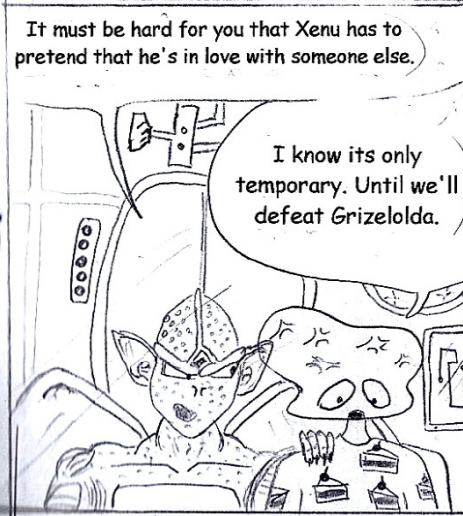

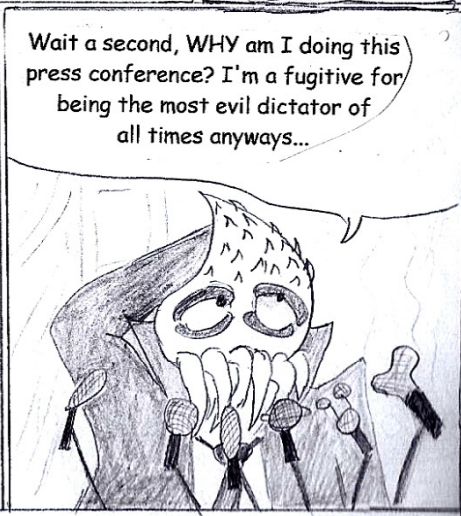

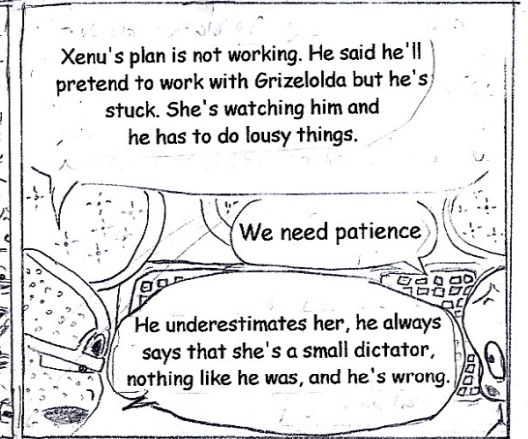

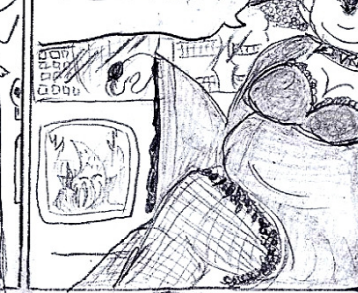

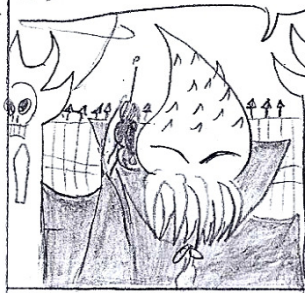

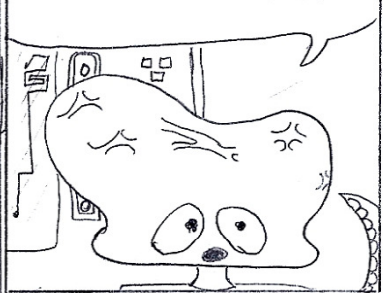

He underestimates her, he always says that she's a small dictator, nothing like he was, and he's wrong.

All the allegations against me are absolute nonsense! Lies that were invented by...

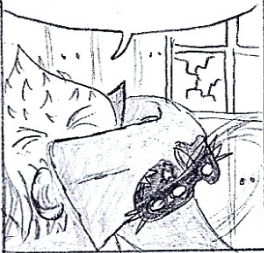

Wait a second, WHY am I doing this press conference? I'm a fugitive for being the most evil dictator of all times anyways...

It must be hard for you that Xenu has to pretend that he's in love with someone else.

I know its only temporary. Until we'll defeat Grizelolda.

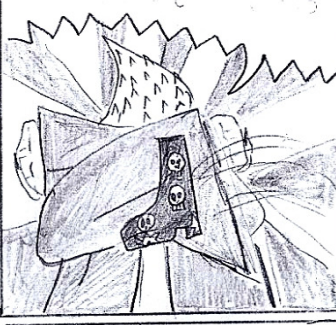

But it's not true!!

Listen to me just one second!

Stop throwing shoes at me! How many have you got?

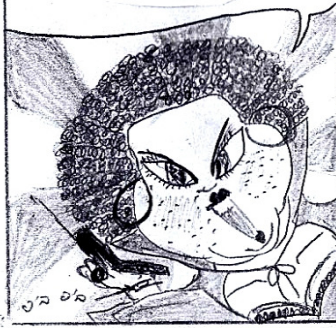

You're right, that's silly...

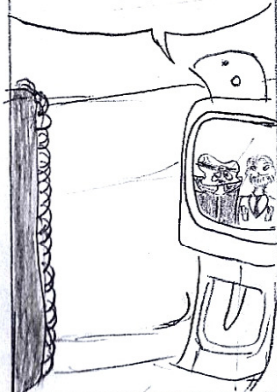

I want you to get a lock on the shoe factory and beam it to the exact coordinates...

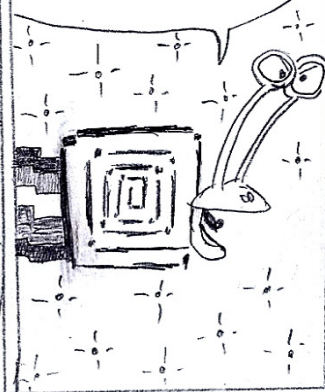

I don't care! I'm your boss and this is my factory!!

Her highness! We located the source of the transmission. But it's not the Lulz starship it's a decoy nyan snail.

Hi hi hi! Gotcha!!!

You see? I told you, They just try to turn us on each other. Don't let them get to you!

You're right! I don't believe I let them get to me...

They will try to split us apart at any chance they'll get. This is exactly what we are doing to them.

What's in your pocket?

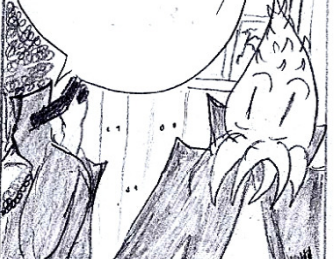

What's that?!

The plan is working, I'll show him! censoring my signs!

Am... security... Xenu the fugitive dictator standing right here beside me...

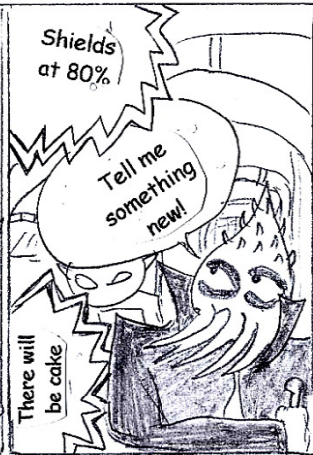

...and the chase continues! Xenu was caught trying to assassinate Grizelolda, after his minions failed. He managed to run away using Grizelolda's private ship. A fleet from 3 Galaxies is chasing him. Will they catch him?

She forgot I have the code for her private ship...

Shields at 80%

Tell me something new!

There will be cake

A magnetic field!

I can hide in here!

Grizelolda! you have to listen to me!

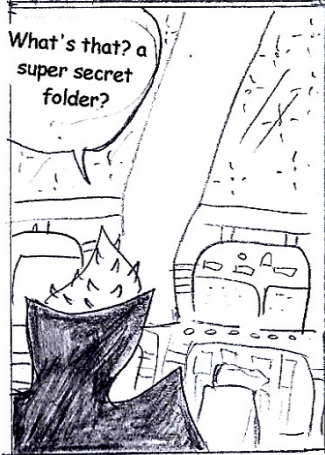

Gladly my dear. Do tell me in witch magnetic field you're hiding...

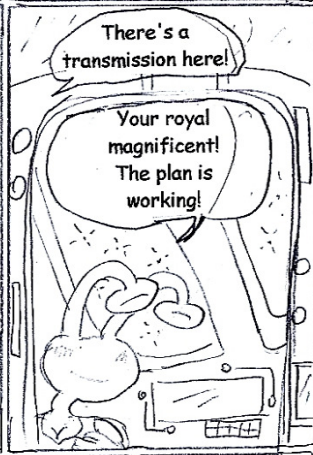

I'm sending you a transmission I've found in a super secret folder on the ship!

Good! then we can locate you!

What's that? a super secret folder?

There's a transmission here!

Your royal magnificent! The plan is working!

Soon we'll deliver a lame excuse to ditch Xenu. he'll think you got mad.

You see? now they try to tell lies about YOU.

And you know it's not true!

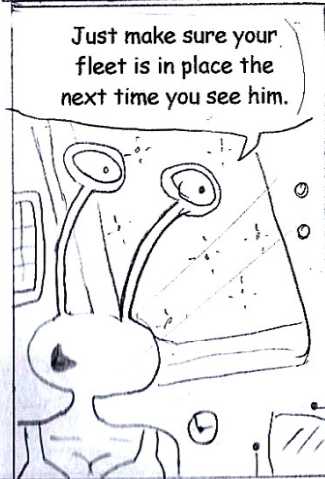

Lock on the source of that transmission and start bombing!

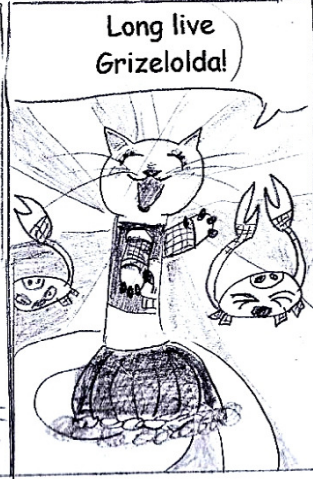

Shields at 50%

I know what you're thinking!

Just make sure your fleet is in place the next time you see him.

Long live Grizelolda!

Yeah... Right...

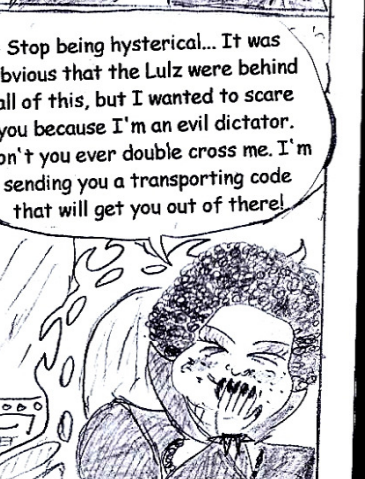

10%

Everybody thinks so! You think that now you're strong enough without owning both sides!

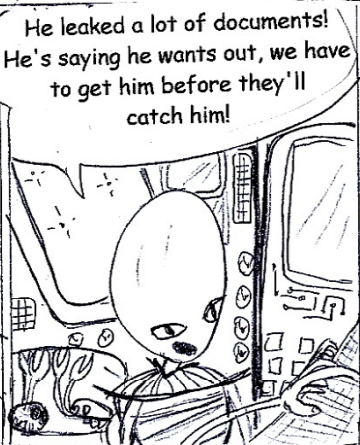

It's too soon! You're making a mistake!!!

Stop being hysterical... It was obvious that the Lulz were behind all of this, but I wanted to scare you because I'm an evil dictator. Don't you ever double cross me. I'm sending you a transporting code that will get you out of there!

We're getting a transmission from our super secret agent!

He leaked a lot of documents! He's saying he wants out, we have to get him before they'll catch him!

Save him!!

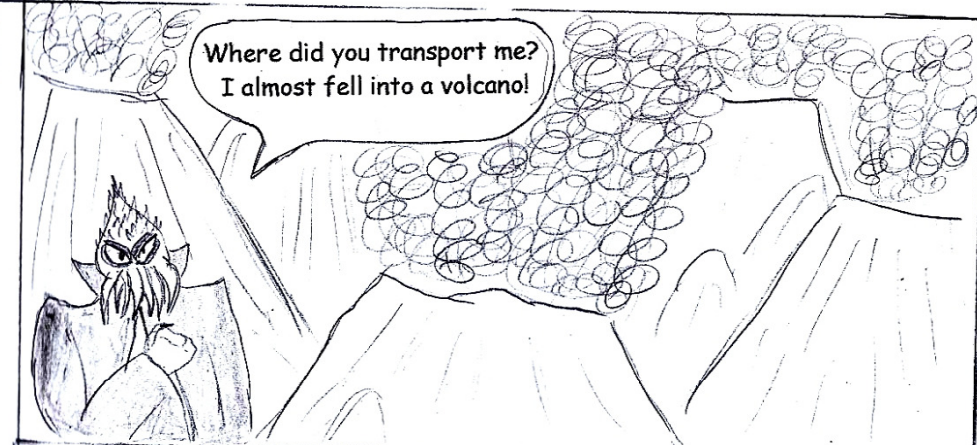

Wait! that list! those are files that have already been leaked.

He can identify a list of over 9000 files, but when I need the capital planets of galaxies for my crossword puzzle...

He usually hides in one of the uninhabited galaxies, but he chose a galaxy with a lot of Grizelolda's patrols...

Where did you transport me? I almost fell into a volcano!

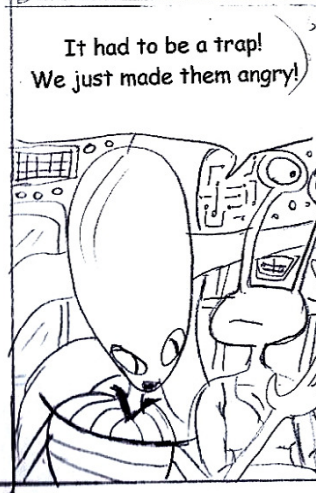

Ironic isn't it? I'm on my way. Everybody who's talking about Xenu is being killed. When you'll come back say that you ran away from Grizelolda who could never kill you!

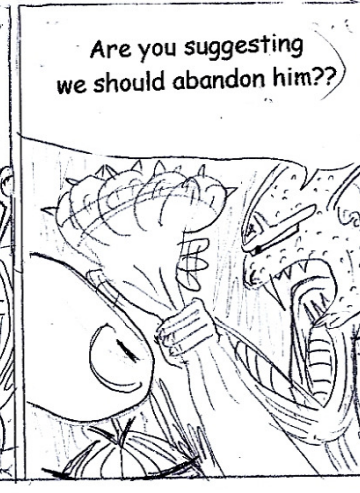

That's... actually a great plan. But from now on, without giving me heart attacks

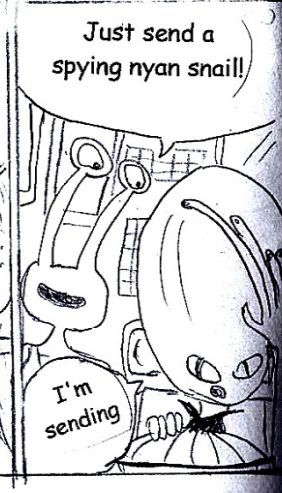

Just some harmless fun...

It had to be a trap! We just made them angry!

Are you suggesting we should abandon him??

Just send a spying nyan snail!

I'm sending

When I think about it... When was the last time Xenu and I had so much fun...

She didn't fell in the lulz trap and she showed that she knows what to do if one goes against her, she is the one!

But it's not as fun as it used to be...

er we managed to plant seeds of mistrust between Xenu and zelolda, I would like to apologize. You were right when you said as n't careful. Because of me we're guilty of moar then just political crimes and look bad.

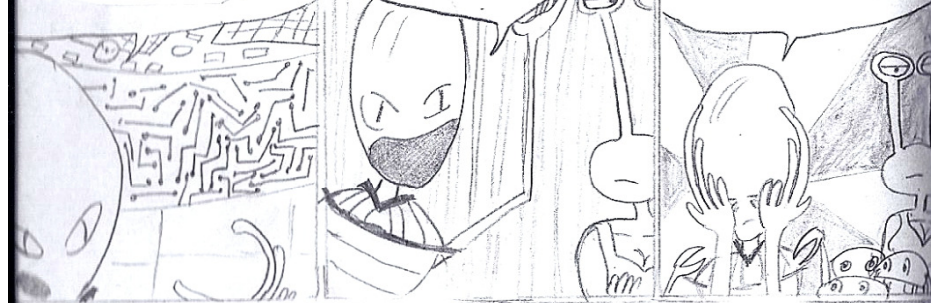

But you have to understand, all those alien females where only to get over you. I'm so madly in love with you and I'm sorry I told you I was a female. I wish I was!

wouldn't mind if you were a male, r if you were the thinnest in the universe, I don't care about appearance.

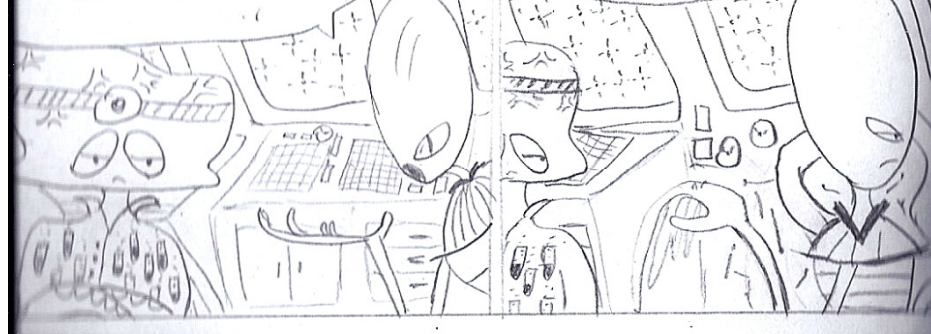

So what if I'm a male? I was born that way! Could you ever....

Yeah, yeah... I'm forgetting about it... Forgetting...

please! It's my body! It's my right to choose a change operation! Come on, don't be a Transphob! I'm trapped in this body that Lola doesn't want to be girlfriend with and...

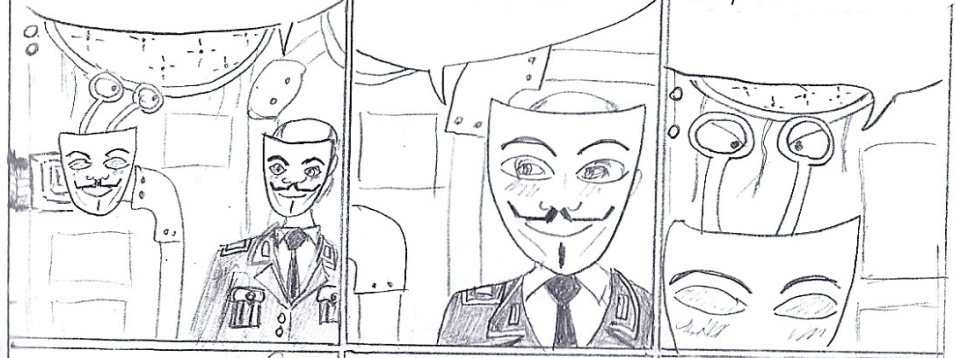

I'm forgetting about that too...

I new you could find me.

I couldn't get away, the only way was to make them send a snail...

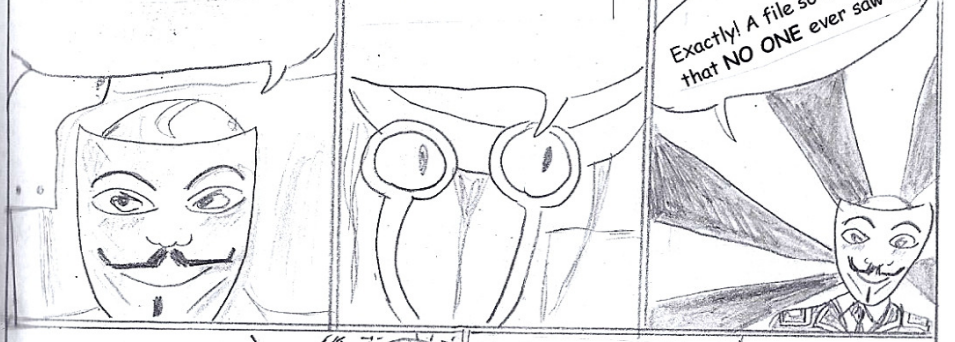

You don't need to explain it to the snail... so tell me, what did you find in the MDSA?

The Mega-Omega file!

You don't mean...

Exactly! A file so secret... that NO ONE ever saw it!

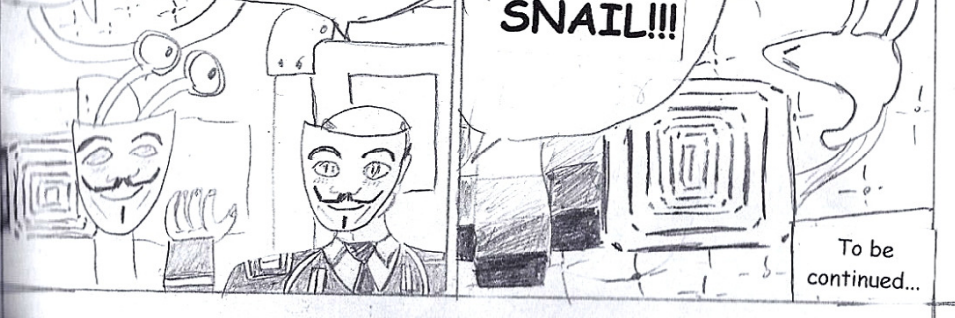

What's in it???

You have to fly fast to the Lulz group!

You crazy! I didn't see it! Do you know how many files that one man saw I already leaked?

STOP SNAIL!!!
